BY BRYAN PADRICK  
Ten minutes — all the time it takes Raeford Turkey Farms, Inc., to convert a barnyard "gobbler" to an oven-ready turkey displayed in the local food market.  
This modern poultry plant processes packages and freezes, ready for delivery to retail and institutional markets in the United States and abroad, thousands of turkeys (Belmont type and heavy) and fowl every day.  
The methods and facilities used by the 194-acre plant at Raeford, N. C., to produce a million pounds of dressed, packaged, and frozen birds weekly, or about 1,500 turkeys per hour.
