The black Ethiopians who always considered themselves a branch of the Caucasian race and who never previously identified themselves with other Africans, have been fighting their black Somali neighbors.

The Somalis have been fighting back, slaughtering many Ethiopians. They are bitter against the Ethiopians because they recall that Ethiopian Emperor Menelik fought along with British and Italian imperialists and grabbed a big chunk of Somali-inhabited territory on the Horn of Africa.

During the revolt in Ethiopia in 1960, the majority Galla tribe, who have no love for the minority ruling Amhara caste, were mobilizing their fierce horsemen for dashing into Addis Ababa to settle old scores with the ruling Amharas.

Kenya is having trouble with dissident tribesmen in her northern region. The Sudan's naked tribesmen in the southern part of that country are sharpening their spears and swords.

With Red Russia and Red China sneaking in arms, the situation in Africa can be expected to get worse before it gets better.

ed upon Uhuru Independence as an end in itself instead of a beginning. But Uhuru marched in

locked arms with trouble. The big and (Bagain) well-developed Congo has been in continuous turmoil ever since Uhuru arrived in 1960. And the end is nowhere in sight.

As former secessionist Moise Tshombe struggles to bring some order out of chaos, more ominous trouble emerges.

Dissent left leaning Congolese have established a People's Democratic Republic in the northeastern part of the strife-torn country.

The name of this new creation sounds rather suspicious. Most of the Communist-ruled countries in the world have identical or similar names.

Crime and varied forms of thuggery and political strife are rampant in Western Nigeria, as a glance at Nigerian newspapers reveals.

The Premier of Nigeria's Western Region, Chief Samuel Akinola, has denounced the crime wave. He claims it is being perpetuated by political opponents.

Many once-respected Chiefs are being carried off to jail as "subversives" and "plotters" against the government.

Chief Akinola admitted recently that massacres verging on civil war are occurring between the Obos and the Onitshas and the Kalabaris and the Okrikas.

The Bahutis in the former Belgian-administered Ruanda-Urundi have been slaughtering the lanky and towering Watusis.

The minority Watusis once held the Bahutis in slavery. Now that the majority Bahutis are in power, they are giving no quarter to their former masters.

Hundreds of thousands of the effeminate and soft-handed Watusis have fled into neighboring Uganda and Tanganyika from the wrath of their former slaves.

Like slaves everywhere, the Bahutis ate, worked and grew strong. The Watusis considered work degrading.

They so disliked work of any kind that they would not even pedal a bicycle. They had their Bahutu slaves push their bicycles.

## THE STORY OF TEN LITTLE FREE WORKERS

Ten little free workers in this country fine and fair.  
But if you cherish your freedom—worker have a care!  
Ten little free workers—Reddy was doing fine  
Until the socialists got him—then there were nine.

Nine little free workers laughed at Reddy's tale  
Along came federal medicine—then there were eight.

Eight little free workers thought this country heaven  
But the government took over the railroads, then there were seven.

Seven little free workers—till the miners got in a fix.  
Uncle said coal's essential and took over leaving six.

Six little free workers 'till the day did arrive  
The unions were federalized—then there were five.

Five little free workers—but the farmers are free no more  
The farms have been collectivized—that leaves only four.

Four little free workers till the government did decree  
All must have free legal advice—then there were three.

Three little free workers—the number is getting few,  
But with government groceries selling food—then there were two.

Two little free workers—our story's almost done,  
With clerks at work in federal stores—that leaves only one.

One little free worker—the reporter son-of-a-gun  
Mustn't criticize government—so now there are none.

Ten little workers—but they are no longer free  
They work when and where ordered, and at a fixed rate you see,  
And it all could have been prevented if they'd only seen fit to agree  
And work together instead of saying "It never can happen to me!"

Yes... this could happen to you. This little story could come true unless each of us works to preserve free enterprise. What can you do? Write your Congressman and ask him to keep government out of business.
