

Robert C. Rivers,
EDITOR AND PROPRIETOR.
THURSDAY, NOV. 23, 1899.

Again we give space in this issue for another letter from our friend W. A. Harman, and we do this cheerfully, as we firmly believe that when our friend sees his error he will be willing to come out and cast his lot with the invincible force of the great governing race to which he and his ancestors belong, whose courage, wisdom and patriotism have built up the grandest commonwealth the sun in its circuit ever cast its rays upon.

Let us awake, awake! and put this offense from us, and march to the glorious destination of the United States and in controvention of the 15th Amendment. It is not, for all can vote under the amendment, if passed, whose father or grandfather could vote before 1867. This takes in the descendants of the free negroes who could vote before 1835.

You say in your letter that you do not believe in negro domination; that the republicans ought not to let negroes dominate their conventions; that they ought not to invest any power whatever in the negro to hold office and control our state and county offices in any way, and this ought not to be tolerated in any party. Now this is the language of a patriot; the language of one within whose veins flows the rich red blood of the glorious Anglo Saxon race. But will our friend please inform a waiting public how the republican party can help it? They dominate the republican party; they in a great measure control the republican party; they are superior in numbers in the republican party; they cast over two-thirds the vote of the republican party in North Carolina, then what can they do? They are powerless to do anything. It is this consideration that is moving a great many of the wisest republicans in North Carolina to come out openly and boldly for the adoption of the amendment. It is this consideration that makes every Western man who comes to North Carolina vote with the democrats on State issues. They know that the stream cannot rise higher than the fountain, and they know that the fountain of power in the Republican party in North Carolina is the negro race. This is known of all men. The records show it; the census shows it; common sense beats it into the brains of every candid man to whatever party he may belong.

Let us awake, awake! and put this offense from us, and march to the glorious destination of the United States and in controvention of the 15th Amendment.

ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way. Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done? This question was answered when we first made

SCOTT'S EMULSION

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs. The bad taste and odor have been taken away, the oil itself has been partially digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.

ny that awaits us. Don't be afraid of a government of white men in North Carolina, for they have always been the representatives of the eternal principles of right. They love justice, peace and mercy. Through matchless vigilance for thousands of years they have built up this mighty civilization. Shall we let it retrograde? Shall we be recorded by the future historians as the degenerate sons of illustrious sires? Let the answer be no, by the eternal gods, NO.

Trinity Notes.

There is a decided increase this year in the number of college graduates who are taking advantage of the opportunities offered at Trinity for more advanced work than is done by the undergraduates. There are fifteen of these this year, while last year there were only six. All of them are A. B. graduates except two are graduates of the Greensboro Female College. Nine of this number are resident students, and the remaining six are teachers in various schools in the community. The facilities for this kind of work have been very much improved in library equipments, scientific apparatus, and the number of instructors; and it is an encouraging sign that so many men are availing themselves of the opportunities. The presence of these select men will lift the standard of scholarship and student ideals of learning, and will prove a wholesale stimulant in the college community.

The scientific Society held its first meeting Saturday evening. Prof. Pegram lectured on Electro-Chemistry. In a very lucid way he presented the subtle action of the voltaic cell and explained it as an example of the theory of solutions.

For the current year Prof. J. J. Hamaker was made president, C. W. Edwards, chairman ex. committee and L. C. Nicholson, secretary. On Monday evening Prof. Pegram gave a lecture on meteors and "star showers" in general, explaining our present visit from the Leonids. The talk was enjoyed by a large audience.

Dr. Kilgo and Prof. Durham will leave the first of next week to attend the Western North Carolina Conference which meets at Concord. The report which the Board of Trustees make to the Conference this year will be most gratifying to all the friends of the Institution.

A number of new books have recently been added to the library: Since last February there have been added 1,233 volumes, and 555 pamphlets. The growth in the library has made it absolutely necessary to have more room.

Zeb. V. Walker, Attorney General for North Carolina, has rendered a decision in which he holds that witnesses before the grand jury are not entitled to pay for their services unless a true bill is found. It seems to us that this is a most unjust decision and one that will be a great hardship to many of our people. If there is a law to compel a man to attend court as a witness before the grand jury, there should be a law compelling the county to pay him for his services.

"Honest Labor Bears a Lovely Face."

There is nothing more pleasing to look upon than a hearty, ruddy face, gained by honest toil. They are the saving of the nation, these toilers of both sexes, struggling for daily bread.

Pure blood makes them able to keep up the daily round of duty at home, shop or store. If the blood has a taint or impurity, or a run down feeling comes on, the one remedy is Hood's Sarsaparilla, America's Greatest Medicine for the blood.

Hood's Pills cure liver ills; the non-irritating and only cathartic to take with Hood's Sarsaparilla.

A dispatch of the 17th says that the attorneys for William Goebel have filed notice with the local election board asking that the vote of the city of Louisville be thrown out, as they claim that the election officers and voters were intimidated by the militia ordered out by the Governor. Should this be done, Goebel is elected by a safe plurality.

Used by British Soldiers in Africa.

Capt. C. G. Dennison is well known all over Africa as commander of the forces that captured the famous rebel Gali-she. Under date of Nov. 4th, '97, from Vryburg, Bechuanaland, he writes: "Before starting on the last campaign I bought a quantity of Chamberlain's Colic, Cholera and Diarrhoea Remedy which I used myself when troubled with bowel complaint, and had it given to my men and in every case it proved most beneficial." For sale by dealers.

BAD BLOOD

"CASCARETS do all claimed for them and are a truly wonderful medicine. I have often wished for a medicine pleasant to take and at last have found it in Cascarets. Since taking them, my blood has been purified and my complexion has improved wonderfully and I feel much better in every way." MRS. SALLIE E. SELLARS, Luttrell, Tenn.
