STARVED

Slow growth of hair comes from lack of hair food. The hair has no life. It is starved. It keeps coming out, gets thinner and thinner, bald spots appear, then actual baldness. The only good hair food you can buy is—

AYER'S HAIR VIGOR

It feeds the roots, stops starvation, and the hair grows thick and long. It cures dandruff also. Keep a bottle of it on your dressing table. It always restores color to faded or gray hair. Mind, we say "always."

\$1.00 a bottle. All druggists.

"I have found your Hair Vigor to be the best remedy I have ever tried for the hair. My hair was falling out very fast, so I thought I would try a bottle of it. I had used only one bottle, and my hair stopped falling out, and it is now real thick and long."

NANCY J. MONTGOMERY, Yorkers, N. Y. July 28, 1900.

Write the Doctor. We will send you his book on The Hair and Scalp. Ask him any question you wish about your hair. You will receive a prompt answer free. Address, DR. J. C. AYER, Lowell, Mass.

"The Negroes Will Get at the Throats of the White Men."

The latest outbreak comes from a negro editor, T. Thos. Fortune, and one W. O. Murphy, presumably a negro also. These two negroes were the chief orators at a negro meeting held in Brooklyn last Sunday to celebrate the one hundredth anniversary of the birth of John Brown.

The meeting was held under the auspices of the Society of the Sons of North Carolina, which is composed of colored men who have gone from this State to live in New York.

Here are a few extracts from Fortune's speech on the halcyon occasion, as reported by the New York Sun:

"It cost tons of blood to put the fifteenth amendment into the Constitution, and it will cost tens of tons to put it out. You must organize and keep your powder dry in order to demand an eye for an eye and a tooth for a tooth in the great crisis which will soon be upon the negro, in which much blood may be spilled. The first gun of the fight was fired at the Montgomery conference."

"If the negro wants his rights in the South, he must fight for them, or he must leave the South. I have formerly opposed Bishop Turner in his appeal to the negroes to leave the South, but I shall myself start a crusade to have all the negroes to leave the South and come North, or go elsewhere, where they can be men."

"There is no use living in the South and crying peace, when there is no peace. I believe in law and order, but when the law does not protect you, you should fight and die, if need be. You should demand an eye for an eye and a tooth for a tooth. The negro will never command respect until he shall strike a blow that will win for himself the respect of the world, for even God has no respect for a coward. The negro should be brave and follow his leaders, whether they lead to Calvary or to a scaffold in West Virginia. There is coming a great crisis for the negro, and the first gun was fired at Montgomery, Ala., when it was proposed that the fifteenth amendment to the Constitution should be repealed. But there can be no settling of the negro problem with the negro out of it, it matters not how many conferences of white men are held."

"There is now 10,000,000 of us, with 2,000,000 fighting men, and in some great crisis in this country these 2,000,000 negroes will get at the throats of the white men who have wronged and outraged their citizenship."

The Washington Post, commenting upon this remarkable meeting, has this to say of Fortune and his pestiferous drive:

He is well educated, a good and forcible writer, and, under ordinary circumstances, a very sensible and well-meaning person. We wonder whether he realizes that, in

this frantic outburst, he has illustrated the most pessimistic estimate of the negro character—the proposition, for example, that no amount of scholastic training or contact with Caucasian civilization will ever eradicate the savage instincts of his race.

In recent speech in Brooklyn, N. Y., a negro, W. O. Murphy, in referring to the campaign in this State, uses the following incendiary language:

"The negro has always been a peaceful man and has only fought when the issue was forced upon him. The trouble is that the negro was born in poverty and has not been able to secure the arms to resist the invasion of his home and his rights, but the negro should study, so as to learn how to manufacture dynamite, so that when he is attacked he can resist his oppressors, as the Russians and Germans have done."

Such utterances should be a warning to the white people of North Carolina. Such harangues to ignorant and excitable crowds will bear fruit. And that fruit can be but a reenactment of the Wilmington riot. The army of invasion suggested will not be raised, dynamite may not be used, but the negro will become more and more insolvent as a citizen and dangerous as a member of society, and the ultimate result will be bloodshed on both sides unless something is done to check his growing insolence, born of the idea that he is the equal in every respect of the white man.

A Cheerful Letter from Home.

"Dear John: This is to inform you how we are all a gittin' on. John ol' boy, your father is no more; your brother has been run over by a switch engine, an' your cousin, Sarah, has run off with a sojer. Your two uncles is in jail, an' your five boys is got the measles. This is all I know at the present. I will write more when it happens. Hoping you will spend next Christmas with what is left of your family, I remain your friend."

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.: It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet as a preventive of suffering we feel it a duty to say a good word for Chamberlain's colic, cholera and diarrhoea remedy. We have known and used this medicine in our family for 20 years and have always found it reliable. In many cases a dose of this remedy would save hours of suffering while a physician is awaited. We do not believe in depending implicitly on any medicine for a cure, but we do believe that if a bottle of Chamberlain's diarrhoea remedy were kept on hand and administered at the inception of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience during the past 20 years. For sale by druggists.

The Winston Registrar Case.

Statesville Landmark.

The case of Registrar Thompson, of Winston, who was accused of refusing to register negroes, and who was arrested by a United States deputy marshal and tried before a United States commissioner, was concluded Friday by the registrar being bound over to the Federal Court in a bond of \$2,000 which he gave. When the case against Registrar Thompson had been concluded the Democrats took a hand in the arresting business and the four negroes who swore out warrants against Thompson and Wall were arrested under the State law and held for trial in a bond of \$500 each.

The Winston case is a great outrage. In the first place the ablest lawyers in the State contend, and the same appears evident even to a layman, that the United States courts have no jurisdiction in the matter. In the second place there was no evidence in this particular case that warranted binding the registrar over. There was no evidence that he had positively refused to register any voter, but that he had, in several instances, required negroes to present other proof than their own word that they were bona fide residents of Winston and were otherwise qualified to vote. Because the name of every negro who applied was not promptly put on the registration book the registrar was arrested by a United States officer and held to court.

The Republicans have shed many tears on account of the possible disfranchisement of the poor white man, whom they profess to love above all things, but all this row over the registration is solely on account of the negro. No white man has any difficulty in registering because he does not apply unless he is duly qualified. But it is the floating negro population, exconvicts and others who are not qualified by legal residence in the precinct, who are demanding to be allowed to register regardless of qualifications, and who, aided and abetted by their white allies, are endeavoring to intimidate registrars throughout the State. A number of instances of threats against registrars attempted violence have been reported. It is told elsewhere in this paper today how three white men and three negroes held up a registrar in Montgomery county and forced him at the muzzles of their guns to enter their names on the registration book, notwithstanding he did not know any of

Was It A Miracle?

"The marvellous cure of Mrs. Rena J. Stout of consumption has created intense excitement in Cammack, Ind.," writes Marion Stuart, a leading druggist of Muncie, Ind. She only weighed 90 pounds when her doctor in Yorktown said she must soon die. Then she began to use Dr. King's New Discovery and gained 87 pounds in weight and was completely cured. It has cured thousands of hopeless cases, and is positively guaranteed to cure all throat, chest and lung diseases. 50c. and \$1. Free trial bottles at Blackburn's.

them personally and did not know whether or not they were entitled to register.

We have said before and say again, that the free white men of North Carolina are not going to be intimidated by negroes and the mean white men who are in citing them to deeds of violence. White men who are behind them—who are inciting them to raise a disturbance—are worse than the negroes, because the latter would not, except possibly in rare instances, attempt to override the law if they were not put up to it. The course pursued by the Republican leaders in this matter will result in trouble if it is persisted in. We devoutly hope that trouble may be avoided, but we as devoutly hope that if the trouble comes the ignorant negroes will not be made to suffer alone. But whether or not a difficulty ensues, we have faith in the honest white men to override them with a gang of negroes.

But returning to the Winston registrar case, we have no idea that the registrar will be convinced in the Federal Court and we doubt if the case will ever be tried. It was to make a show of force by the minions of the Federal government and it possible to frighten somebody that the arrest was made. But it has had the opposite effect. The white men of Winston and Forsyth and of the whole State are thoroughly aroused and determined. Today at Winston an indignation meeting will be held to protest against attempted Federal interferences in State elections. Senator Ransom will be the principal speaker, and referring to this fact the Raleigh Post fittingly says: When the same element, in 1870, undertook to overawe and trample down the honest white men of the State, when the father of the man whose pockets burn every day with the money that belongs to W. T. Crawford, declared the "judiciary was exhausted," it was this same Matt Ransom who hastened to the Federal judge, Brooks, and obtained the order which opened the prison doors, freed our people and scattered our enemies.

It is fitting, therefore, that again, when the malicious hirelings of a degraded combination are attempting to brow beat and overawe the honest people of our State, and basely abuse the prerogatives of their mad efforts, that the voice of the old man eloquent should again be heard in tones that will shame our enemies and arouse to the highest degree of patriotic endeavor the energies of a free and a brave people.

An Epidemic of Diarrhoea.

Mr. A. Sanders, writing from Coconut Grove, Fla., says there has been quite an epidemic of diarrhoea there. He said he had a severe attack and was cured by four doses of Chamberlain's colic, cholera and diarrhoea remedy. He says he also recommended it to others and they say it is the best medicine they ever used. Sold by druggists.

Holton's Blunders.

Raleigh News and Observer.

The Republicans are having no easy time just now.

They have found that it is not such an easy job to foist negro rule upon a State as they had imagined.

And they are seeing lots of trouble keeping their folks in line. The latest instance of defection is that of Governor Russell.

He says that the amendment will be adopted by a large majority.

He attributes the large majority it will receive to the bungling of Holton whom he styles as "that d—n pigeon-headed little fool."

The Governor says the arrest of the registrars at Winston was a most egregious blunder. And not only that, it was fatal to any chance the Republicans might have had of carrying the State in August or November either.

Said he: "The blundering of Holton and the other Federal officers in the matter of arresting the registrar at Winston and in other matters has made it so that McKinley cannot possibly carry the State. They have killed every chance that he had. I think he would have carried the State but for Holton's blundering, but he cannot hope to do so now. And it is all Holton's work."

Now this did not come direct from the News and Observer. The Governor has seen fit to honor this paper with his abundant and fervent hate. But it does come from a source that is reliable; and it may be depended upon, as stating the Governor's belief in the matter.

Cleveland Star: The men who are remaining in the Populist party are fast losing their identity and gradually being swallowed up by the Republicans. What are Butler, the Populist Senator, and Cy Thompson, the Populist candidate for Governor, speaking before Republican county conventions for? Can't any man with a thin blief of sense see that Butler, Thompson, Holton, Pritchard and the negro, Abe Middleton, are working hand in hand against the great white people in this State? They are all Radicals.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers. They filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.
