A Cough

"I have made a most thorough trial of Ayer's Cherry Pectoral and am prepared to say that for all diseases of the lungs it never disappoints."
J. Early Finley, Ironton, O.

Ayer's Cherry Pectoral won't cure rheumatism; we never said it would. It won't cure dyspepsia; we never claimed it. But it will cure coughs and colds of all kinds. We first said this sixty years ago; we've been saying it ever since.

Consult your doctor. If he says take it, take it. If he says don't take it, don't take it. If he says leave it with him, we are willing.
J. C. AYER CO., Lowell, Mass.

"Maui a man's crookedness is due to his attempt to make both ends meet."

A Certain Cure for Dysentery and Diarrhoea.

Some years ago I was one of a party that intended making a long bicycle trip, says E. L. Taylor, of New Albany, Bradford county, Pa. "I was taken suddenly with diarrhoea and was about to give up the trip, when Editor Ward, of the Luceyville Messenger suggested that I take a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I purchased a bottle and took two doses, one before starting and one on the route. I made the trip successfully and never felt any bad effect. Again last summer I was almost completely broken down with an attack of dysentery. I bought a bottle of the same remedy and this time one dose cured me." Sold by M. B. Blackburn.

The Retirement of Henderson.

The declination of the Hon. David B. Henderson to run for Congress in his old district in Iowa, is extremely significant. There was evidently a multiplicity of reasons that he could have assigned for this action, but so far as the public knows he gives one, namely, the growing tariff revision sentiment in his district. In the first place, Mr. Henderson was out of harmony and tune with the Republicans of his state, as well as many of them in the entire Northwest on the question of tariff revision. He has unfortunately contended that the trusts were not fostered by the tariff, while every thinking man in the United States is convinced of the fact that without the tariff, Trusts of an abnormal character would not be able to prey on the resources and productive energy of the American people. When the same American Trusts are able to compete in the markets of the world and undersell all other producers in other countries on the same article that they manufacture in the United States, it is manifest that they fear no foreign competition. These same corporations, not only control the American market, but dominate the commerce of the world. They do not bring one penny of revenue into our National Treasury, but by the protection afforded them under the schedules of the present Dingley tariff law they are enabled to plunder our people at home and make millions by the sale of their product abroad. Mr. Henderson, in stating his reason for withdrawal assumes that the Democrats want to destroy these industries rather than curtail their rapacity. The Speaker's praise being wrong as to the former, his conclusions, of necessity, are erroneous as to the latter.

The Democrats do want effective legislation that will take away from the Trusts the privileges that they now enjoy that enables them to accumulate unearned millions at the expense of the American producer and wage earner. The Democrats are pledged to control the Trusts by taking away from them the protection of the Dingley Tariff law. The Democrats want a tariff for revenue and not a tariff for trusts. The Democrats and the Republicans and the Trusts, know that the only way to handle these obnoxious combinations of criminal capitalists is through the tariff. It is for

TAKE CARE OF THE STOMACH.

The man or woman whose digestion is perfect and whose stomach performs its every function is never sick. Kodol cleanses, purifies and sweetens the stomach and cures positively and permanently all stomach troubles, indigestion and dyspepsia. It is the wonderful reconstructive tonic that is making so many sick people well and weak people strong by conveying to their bodies all of the nourishment in the food they eat. Rev. J. H. Holladay, of Holladay, Miss. writes, Kodol cured me. I consider it the best remedy I ever used for dyspepsia and stomach troubles. It was given up by physicians. Kodol saved my life. Take it after meals. T. J. Coffey & Bro.

these reasons that Speaker Henderson retires, because he knows the Trusts and the Republican party cannot exist if the one is divorced from the other.

There is but one conclusion that the American people will come to concerning the action of Speaker Henderson and that is that he was facing defeat because he refused to carry out the expressed wishes of his own constituents. It is highly probable that Mr. Henderson would have been defeated anyway.

The Republican party, divided as it is, refuses to refuse to revise the Dingley tariff and place on the free list monopolies selling cheaper abroad than at home, owing to this defeat at their defeat at the polls this November is as certain as two and two make four.

A Night of Terror.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machiam, Me., when the doctors said she would die from pneumonia before morning," writes Mrs. S. H. Lincoln, who attended her that fearful night, but she begged for Dr. King's New Discovery, which had more than once saved her life, and cured her of consumption. After taking, she slept all night. Further use entirely cured her." This marvelous medicine is guaranteed to cure all throat, lung, and chest diseases. Only 50 cents and \$1 per bottle. Trial bottles free at M. B. Blackburn's.

Philadelphia Record: At the meeting of the British Association for the Advancement of Science at Belfast, Ireland, the general opinion of the members was voiced that such trusts and combinations that exist in the United States "have little chance of eventual success in such a free trade country as Great Britain." This is in accordance with the deductions of science and reason. It may be assumed, too, without violence that the men of science in Great Britain are much more capable of delivering an impartial opinion as to the economic conditions in their country than are the protectionist doctors on this side of the Atlantic.

Josh Westhafer, of Loogotee, Ind., is a poor man, but he says he would not be without Chamberlain's Pain Balm if it cost five dollars a bottle for it saved him from being a cripple. No external application is equal to this liniment for stiff and swollen joints, contracted muscles, stiff neck sprains and rheumatic and muscular pains. It has also cured numerous cases of partial paralysis. It is for sale by M. B. Blackburn.

Knoxville Sentinel: Mr. Baer says that the renal mines have been operated at a loss all these years. No doubt of that but who has got that which was lost, and who lost it?

"I am using a box of Chamberlain's Stomach & Liver Tablets and find them the best thing for my stomach I ever use," says T. W. Robinson, justice of the peace, Iloomis, Mich. These tablets not only correct disorders of the stomach, but regulate the liver and bowels. They are easy to take and pleasant in effect. Price 25 cents per box. For sale by M. B. Blackburn.

At Oyster Bay.

The President, if we may believe certain of his enemies, has thrown himself into the hands of a receiver. Several prominent Republican Senators have been his guests by invitation, and the interpretation put upon the gathering, is that the President seeks light on the question of what he shall say on his coming tour. We are told that his Trust talk in New England was thoroughly distasteful in moneyed circles, and that he has been advised not to repeat it in the Middle States and the northwest. Cautioned in this way, he is represented as in doubt as to the proper course, and in a mood to be advised. The cow boy has been changed into a tenderfoot.

The difficulty with this explanation is two-fold. In the first place, the President is now on record, so far as the Trust question is concerned. His deliverances in New England have been read and digested in every section of the country. He could not take the back track anywhere without exposing himself to the charge of cowardice, and that is about the last charge he is likely to invite or deserve. It is fairly to be assumed therefore that the President will neither dodge the trust issue, nor treat it in a form different from that he employed in New England. Trusts, properly so called to the extent that they are a menace at all, are a menace to the whole country. The people of all sections are alike concerned.

In the second place, to accept this explanation requires one to part with the impression that the President as an individual of his own mind. In the light of it, what becomes of the bronco-buster? Where is the young man who knows it all and cannot be influenced by any body? What is left of hope of the opposition that the man in the White House is to develop into a youthful Republican edition of Mr. Cleveland and smash his party through stubbornness and self-confidence? The President cannot be "two gentlemen in one." If he has called in a committee to edit his tongue he is not a dead game political sport. If he hasn't we must find another explanation of the visit of these Senators to Oyster Bay.—Washington Evening Star (Rep.)

The Beginning of the End.

The withdrawal of Speaker Henderson from the race for congress is a most extraordinary occurrence. The reason he gives is that his republican constituents are in favor of the removal of the tariff from trust made products and he is opposed to it. No doubt he is right in his diagnosis of the case, and though he had a plurality of over eleven thousand to fall back on he is wise to withdraw.

The truth is that the reaction against class legislation is setting in, and there is a constantly growing protest in the republican ranks against taxing the many for the benefit of the few. How far it may reach in this election is uncertain, but Mr. Lincoln's axiom, "you can't fool all the people all the time," is going to be realized before very long.

In fact there could be no better evidence of this than Mr. Henderson's statement of the condition of sentiment in the republican party in Iowa. It has been an intensely republican state and yet it has so far accepted what he calls 'democratic doctrine' of 'free trade' that he feels that he no longer represents the sentiment of his party.

If such a change has come in Iowa what may be looked for elsewhere? And what effect will this demonstration or revolt in Iowa have in opening the eyes of republicans elsewhere to the injustice and folly of the protective system. Manifestly we are approaching the beginning of an era. The break up of the republican party has begun, and the people are commencing to assert that sober second thought which is the accepted measure of popular wisdom.—Indianapolis State Sentinel.

A Communication.

MR. EDITOR:—Allow me to speak a few words in favor of Chamberlain's Cough Remedy. I suffered for three years with bronchitis and couldn't sleep at night. I tried several doctors and various patent medicines, but could get nothing to give me any relief until my wife got a bottle of this valuable medicine which has completely relieved me.—W. S. Brockman, Bagnell, Mo. This remedy is for sale by M. B. Blackburn.

Buffalo Express: A sailor from the Kearsarge, which has just returned from the war, bombarded a New York trolley car with buns and crackers and then poured a hot water over a pop corn peddler. Evidently this war was conducted and wanted to give New Yorker a real taste of what the nation's sailors can do.

A Shocking Calamity.

"Lately befell a railroad laborer," writes Dr. A. Kellett, of Wilford, Ark. His foot was badly crushed, but Bucklen's Arnica Salve quickly cured him. Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The purifiers of your blood, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kline's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. House of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kline & Co., Binghamton, N. Y.
