

Edison Solves Another Problem. Knoxville Sentinel.

Thomas A. Edison, the wizard of electricity, declares he has solved the problem of the electric storage battery. Edison has given the world practically all its great electrical achievements, and is therefore no surprise that he should now claim success in his latter day experiments for a practical commercial storage battery. This is a most important achievement, for it means the successful application of electricity as a motive power to vehicles and devices other than trolley railway cars. If the success is that which is claimed by the inventor, it will be applied to carriages, buggies, delivery wagons, motor cars, and the day of cheaper transportation will have been reached. It is estimated that a saving of 58 per cent. is possible in the abolition of the trolley system from the electric railroads, and the storage battery is the only device where by this savings may be brought about.

Mr. Edison's announcement is accepted in a spirit of good faith, for his successful endeavor in revealing possibilities in electricity place him at the head of the long list of electrical inventors of the world. Though not generally known, Tennessee has some claim on Edison, for Nashville was the scene of his earlier work, previous to going to New York to carry on extensive experiments which have since revolutionized power and lightning systems the world over.

Mr. Roosevelt got very mad. treated a Massachusetts delegation of gentlemen very curtly. grossly insulted a good man. What about? Because the President says Mr. Whitney misrepresented his views on Canadian reciprocity. But the public has not been able to learn what Mr. Roosevelt's views are. Wouldn't it be better to enlighten them than to ruthlessly insult Mr. Whitney?—News and Observer.

Promise of an Electric Line? Col. Richard N. Hackett, of Wilkesboro, was in the city yesterday for a few hours, says the Charlotte Observer. He is very much interested in a project that is on foot in his part of the country that may end in an electric car line from Wilkesboro to Blowing Rock by Jefferson and Boone. The road would follow the turnpike from Wilkesboro to the top of the mountain, eight miles this side of Jefferson and then run by Boone. The distance traversed would be about 55 miles. If the road is built, and Col. Hackett believes it will be within the next three years, it would connect some of the finest timber, farming and mineral lands in the State, with the outside world. A great section of country would be developed.

A number of business men of ability and capital are behind the proposition.

Bilious Attack Quickly Cured, A few weeks ago I had a bilious attack that was so severe I wasn't able to go to the office for two days. Failing to get relief from my family physician's treatment, I took three of Chamberlain's Stomach and Liver Tablets and the next day I felt like a new man.—H. C. Baily, Editor of the News, Chapin, S. C. These tablets are for sale by all dealers. Boone, and Blowing Rock Drug Co.

Mr. A. L. Sigman, says the Newton Enterprise, returned a few days ago from a trip by wagon to Lenoir for apples and cabbage. He says Lenoir is crowded with down the country wagons and everything is bringing a big price; cabbage \$1.50 a hundred and apples in proportion. On his way home he met forty wagons going up for mountain produce.

"All Set One." A Devout man of God had preached at some length to his congregation, relative to their obligation to both God and man, dwelling at length upon the advisability of starting the new year with a clean balance sheet. The sermon being ended, he remarked, "Now, I want all in the congregation to stand up." After all were standing, he said, "Now all those who have settled last year's obligations, and are starting the new year with a clean record, will please be seated." All took their seats with one exception, a meek looking individual, who remained standing. The minister addressed him as follows: "How is it, my brother that you alone, in all this congregation, have not been able to start the new year with a clear record?" The culprit stood for a second and then answered, "I am the Editor of the paper and these brethren, my subscribers, have not—" But before he could finish, the minister interrupted him with the exclamation, "Let us pray!"

Let Common Sense Decide Do you honestly believe, that coffee sold loose (in bulk), exposed to dust, germs and insects, passing through many hands (some of them not over-clean), "blended," you don't know how or by whom, is fit for your use? Of course you don't. But LION COFFEE is another story. The green berries, selected by keen judges of the plantation, are skillfully roasted at our factories, where precautions you would not dream of are taken to secure perfect cleanliness, flavor, strength and uniformity. From the time the coffee leaves the factory no hand touches it till it is opened in your kitchen. This has made LION COFFEE the LEADER OF ALL PACKAGE COFFEES. Millions of American Homes welcome LION COFFEE daily. There is no stronger proof of merit than continued and increasing popularity. "Quality survives all opposition." (Sold only in 1 lb. packages. Lion-head on every package.) (Save your Lion-heads for valuable premiums.) SOLD BY GROCERS EVERYWHERE. WOOLSON SPICE CO., Toledo, Ohio.
