## An Earnest Appeal to Our Farmers.

Mr. Editor:—The late Charles B Aycock, in giving a definition of "Democracy," after a characteristic flight of eloquence, chose the word "Equal" and said: "Upon that word I am willing to place myself and my party." Seth Lowe, one time Mayor of New York, in seeking a remedy for the high cost of living chose the word "Co operation" and said he believed that would in a great measure, solve the problem.

Co-operation and organization have been adopted and have wrought marvelous results for all classes of mankind, except the farmer and where he is organized and co-operating he is getting results. In many parts of the country, and in some parts of our beloved State, the farmers have built a system of warehouses through which they sell their cotton, grains and other products in a systematic and co-operative way, thereby getting far better prices than previously. They also have co-operative stores that furnish their supplies very much cheaper than they can get them from the general merchant.

Then, what's the matter with Watauga? Why not have co-operation here? We are classed with the pauper counties of the state, being one of the 45 that don't pay enough taxes to defray our running expenses. It is said that the farmers produce nine-tenths of the wealth of the country and gets only three tenths. If these figures are correct, and if they apply to Watauga, it will be a generation before we be anything else than a pauper county unless the farmers find some way to realize more than three tenths on their production. How may it be done?

1. By organization, not on the part of a few farmers, but by all the farmers.  
2. Organize to stay organized until we get the relief we need. Those who are getting six-tenths of the wealth that we produce are organized. Then no great reformation is brought about in a year, nor ten years.

It is said that for forty years previous to the Civil war, the pot was simmering, and for thirty years the parcel post, that promised to be such a boon to the rural districts, was agitated. Then, Brother farmer, if we, by thirty years of organized effort, lay a foundation upon which our children and grand-children can stand, and from which they can draw equal remuneration for their work with other organized efforts, we have not labored in vain.

3. By co-operation build a warehouse when the railroad comes. "I'm from Missouri," and thro' a warehouse system market all our produce, than which there can be no better in all the land, selling direct to the consumer, thereby saving more than three-tenths our earnings and also relieving, very materially, the consumer.

I therefore appeal to every farmer in Watauga county to organize not with the hope of getting results in a day but with the determination to stay organized till results do come as come they sure will. It has been demonstrated that united effort pays. The Farmers Union was an important factor in securing, at the hands of this Legislature, a six months school term; the Torrens system of registering land titles and some other important bills were recommended but haven't passed yet.

Therefore if farmers get equal rights and recognition with oth-

## Margaret B. McGuire.

On November the 28th, 1912, at the advanced age of 86 years, 11 months and 21 days, Margaret B. McGuire, after a lingering illness of several months, succumbed to death and passed to the great beyond.

The deceased was married to Harvey McGuire in 1847, and after his death, which occurred 12 years ago, she spent the remainder of her life in the quiet and peaceful home of her youngest son, Mr. Will H. McGuire at Brookside.

She joined the Baptist church at South Fork in 1842, and lived a consistent christian life, and died in the brightness of the christian faith. She leaves two sons and three daughters to mourn their loss.

By her wise precept and splendid christian example, she wove garments of christian fidelity, which are accepted and worn by her children, as all are faithful workers in the church and respected members of society.

Children, "Weep not as those who have no hope." Transition from this to the life beyond is the heritage of our friend. "We all do fall as the leaf and every human pathway leads to an open grave.

The Psalmist says: "As the flower of the field so perisheth, the wind passeth over it and it is gone." Isaiah says that "All flesh is grass and the goodness thereof is as the flower of the field." The Apostle James illustrating the brevity of human life says: "As the flower of the grass, so he passeth away."

May the children of the dear departed mother breathe on the air of faith and hope, the beautiful sentiment expressed by the dying boy in the absence of his mother:

Tell mother I will meet her,  
When my work of love and labor  
all is through;  
Tell her that her boy will meet  
her  
In the land beyond the blue."

## Health Warning.

Chilled and wet feet result in congesting the internal organs and inflammation of the kidneys and bladder, with rheumatic twinges and pain in back, generally follow. Use Foley Kidney Pills, they are the best medicine made for all disorders of the kidneys, for bladder irregularities, and for backache and rheumatism. They do not contain habit forming drugs. Tonic in action quick in results. For sale by all dealers.

In very many cases the man who was born with a silver spoon in his mouth is now looking for something to eat with the spoon.

If you are a housewife you cannot reasonably hope to be healthy or beautiful by washing dishes, sweeping and doing housework all day, and crawling into bed at night dead tired. You must get out into the open air and sunlight. If you do this every day and keep your stomach and bowels in good order by taking Chamberlain's Tablets when needed, you should become both healthful and beautiful. For sale by all dealers.

It matrimony is a "tie up," divorce must be a strike.

Dysentery is always serious and often a dangerous disease, but it can be cured. Chamberlain's Colic Cholera and Diarrhoea Remedy has cured it even when malignant epidemic. For sale by all dealers.

For classes of men they must organize and stay organized until dissolved by order.

There are some other things I would like to refer to but this is already too long. Feb 20th 1913.
