**DECEMBER 20, 1923.** 

tain in the Capital City of the Nation what is known as the Bareau of Railway Economics, paying each their proportionate share towards it.

Its activities include the gathering of a large and valuable library, bearing upon all phases of railroad trai portation, and the issuing of bullcrins and statistical summaries, designed to present a national picture of railroads their operation and costa.

The reilroads contributing apport of this institution, through it enabled to understand what all raif roads are doing, and get a complete vision of national milroad operation find it a most valuable adjunct to

Such an organization is needed in that other growing and vitally in portant transportation field, the high way world. For highways are randig hands his household sumplies. With the increasing are of the automobile as a passenger carrier and the track as means of freight transportation the highway is coming to take its place in the Nation, but as a seconsystem, but as a primary or ar terial transport system, which will in a few doort gears, rival the railroads in tenname if not in speed.

A horau of Bighway Traffic Fee nomics will evalue all road maker to function more perfectly, make mo progress, save in an money and

maals more efficiently "But who will do it?" The Nation must do 0, its bood is but one more argument for the establishment of a policy of national Highway Soulders and national coul using, by which the National Government will not only a system of national roads, but will, through some organization laid down similar bues to the Bureau of Railway Economics, make it possi-

But the private concern in compose have been financial considerations ing snow from a highway, rainrally but it is more than probable that it considers only its immediate benefit is a case of a devoted wife to a hus

## **BASEBALL PITCHER GIVEN**

Youthful Player Gets Most of \$75,000 Left by a Neighbor.

New London, Coun .- A neighbor's boy who had gained his admiration, largely because of ability as a base ball pitcher, will receive the bulk of the \$75,000 estate of Robert W. Hal-han, retired Meriden Cutlery company superintendent, whose will was filed hore recently.

trust to a sister, who has died, and \$1,000 each to four nieces, 56,000 each to Rev. E. G. Reynolds, a retired minto her, r. to the tentury, and Floyd Roben-son, who were friends of the deceased. To two neighbors is left \$500 each and to mother, Mrs. Alice Powers, \$5,000 in trust.

The residue goes to Elmer F. Rader. aged eighteen, son of Mr, and Mrs. George Raker, with the provision that he go to college. In the event of his death without issue if is stipulated that the money he divided among All

he pitched on the baseball team. Mr. Hallan took a liking to the boy and cheered him frequently for his pitch-ing, while Rader's little acts of thoughtfulness made a deep impression on Mr. Hallan and his wife. The latter died about a year ago, no children being born to the couple.

Young Rader's share of the estate will total nearly \$75,000 and will include the \$10,000 bequeathed to the sister who has died since the writing of the will. He receives one-half of the legacy now and the remainder in five years. His father is a factory employee.

Farmers Profit on Road Building

A land owner in a southern state had a large property of many acres you open an account with a beautiful house, and a big peach orchard in bearing. Family circum- us, and NOW. stances made it necessary for him to sell his property which was valued about a hundred thousand dollars. Putting it in the hands of som able real estate men, the property owner received several calls from prospective purchasers. He met the -- purchasers at the railroad station, motored them six miles over a good State road and half a mile over a rough and bumpy dirt road to his house

None of them purchased.

Acting on the adivce of one of the real estate men, the owner spent five
