To Our Patrons

We have had an enormous business this fall in both of our stores--in fact we find it necessary to send a buyer to New York next week. Is this not good proof that merchandise is good and our prices are right?

We seek to maintain low prices but we never sell an article so low that we cannot be sure the quality is not good. We therefore give quality first consideration and price second.

WE URGE YOU TO INVESTIGATE OUR PRICES AND THE QUALITY OF OUR MERCHANDISE.
