HAVE A CARE FOR YOUR PLUMBING

Plumbing—like teeth—should be inspected at least once a year. Pipes and joints are naturally bound to spring a leak in due course of time. You can save yourself much needless expense and loss by calling us in regularly to inspect and make needed repairs.

With freezing winter months coming on it would be well to consider inspection, repairs or alterations in plumbing at this time.

Our service charge is very reasonable and all work is guaranteed. We recommend no changes or repairs unless to your advantage and home comfort.
