temperature. Miners in the Comstock mine work at a temperature of 130 degrees.

Some day man will tunnel fifteen miles deep or more and utilize the earth's heat to run machinery on the surface.

News reaches The Democrat of the marriage of "Uncle Smith" Rominger to a Mrs. Phillips, the wedding having occurred near their homes at Matney on Tuesday. Rev. Mr. Wood performed the ceremony.

In order to make up a deficit in the collections at the Boone Methodist Church, it was announced last Sunday that on the 20th, every member who could, would be asked to contribute one dollar to the church. However, since Dr. Chandler will be absent next Sunday, the dollar collection has been postponed until Sunday morning, the 27th. At this time it is hoped that the small contribution will be generally made and did rains much improvement is hoped that the collection will be large plants in great quantities are being last we tives. In order to make up a deficit in

The recent rains have stimulated further cabbage planting. The long dry spell has been very destructive to young plants as well as retard-

ing the growth. Almost every farmer will tell you that the potato crop is cut one half. The long drought has caused the vines to die prematurely; however the Green Mountain Variety seems to have withstood the dry worther work better the Cob. weather much better than the Cob-

The Preachers' Conference held with Proffitt's Grove Baptist Church on Meat Camp was well attended and the dinner spread by the good people of the community was just fine and abundant. The next conference goes to Zionsville.
