# COMFORT

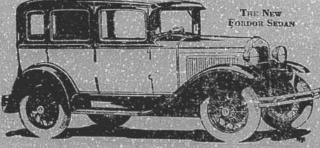

### Every new Ford is equipped with four Houdaille double-acting hydraulic shock absorbers

ONE of the fine things about driving the new Ford is the way it takes you over the miles without strain or fatigue. No matter how long the trip, you know it will bring you safely, quickly, comfortably to the journey's end.

The seats are generously wide, deeply cushioned and earcfully designed to conform to the curves of the body. Every new Ford has specially designed springs and four Houdaille double-acting hydraulic shock absorbers. These work both ways - up and down. They absorb the force of road shocks and also provide a cushion against the rebound of the springs.

Other features that make the new Ford a value far above the price are the Triplex shatter-proof glass windshield, silent, fully enclosed four-wheel brakes, more than twenty ball and roller bearings, extensive use of fine steel forgings, aluminum pistons, chrome silicon alloy valves, torque-tube drive, Rustless Steel and unusual accuracy in manufacturing.

In addition, you save many dollars because of the low first cost of the new Ford, low cost of operation and up-keep, and low yearly depreciation.

\$430 to \$630

F.O. R. Detroit, plus freight and delivery. Enumpers and spare tire extre et small cost. You can purchase a Ford on economical terms through the Authorised Ford Finance Plans of the Universal Credit Company.
