

**ITEMS FROM OUR EARLY FILES**

Items from The Democrat of December 12, 1934:

Attorney W. B. Council is off on a business trip to Lenoir. Rev. E. F. Jones of Gastonia spent a few days recently visiting friends in Watauga.

We are informed that A. M. Trivett has accepted the position of assistant teacher in Cove Creek Academy.

The school at New River Academy is in a more prosperous condition under the management of W. M. Francum, principal. The school is one of the very best in our mountain section.

The Governor has offered \$150 reward for the unknown person or persons who, on the night of the 5th of July last, burned the store house barn and dwelling of W. L. Bryan of this place.

County Surveyor A. M. Trivett tendered his resignation to the Board of County Commissioners on the first Monday and the same was accepted. The Clerk will appoint someone to fill the unexpired term.

We regret exceedingly to lose Rev. Mr. Gentry who for the past year has been pastor of the M. E. Church in Boone. Wherever he goes our best wishes attend him. Rev. T. E. Weaver succeeds him, and it is hoped the people will support him and hold up his hands as he labors for their good.

On Monday evening of this week, the mail carrier between Boone and Stony Fork got too much corn "licker" aboard, fell from his horse, lost his mail in the darkness and reached his home afoot at daybreak the next morning. Search was made for the mail and it was found that the trusty old horse had guarded it all night. From this it appears that the horse was more to be relied upon than his rider. The mail, when opened, was found to be in good condition, as far as the postmaster here was able to see.

North Wilkesboro is to have a \$100,000 tannery.

**TRACY NEWS**

Rev. A. G. Lackey filled his regular appointment at Thomas Chapel Sunday evening.

**Super - Safety**

Blowout Protection? Sure! But—  
**NON - SKID GRIP**  
is 5½ times more necessary to safety

Your big worry should be skidding—the cause of 5½ times more accidents than blow-outs. Smooth tires skid 77 per cent farther, other new tires skid 25 per cent farther, than new "G-3" Goodyear All-Weather Tires (proved by 8,400 tests). Since this "Goodyear Margin of Safety" costs nothing extra; get it now—ride safely during the slippery driving months.

43% MORE MILES of Real Non-Skid because "G-3" All-Weather Tread is flatter, wider, heavier, tougher. Blowout protection in EVERY ply because Patented Super-twist Cord is up to 61% more elastic—it absorbs shocks!

A Great Tube for the "G-3" Thicker tougher rubber on rim-side resists pinching, punctures. Ask for Goodyear Double Service Tube.

THE ARRIVAL OF WINTER brings forth two exceptionally strong reasons why car owners should equip their automobiles with the new G-3 Goodyear Tires: Most important is safety on the slippery roads. New G-3 Goodyears put on now provide full non-skid protection when roads are most slippery, and they are insurance against punctures and blowouts. No delay . . . we carry in stock all sizes of Goodyear casings and tubes.
