How Calotabs Help Nature To Throw-Off a Bad Cold

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night, if needed.
How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxins.
Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.
Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)

HOW LONG DO YOUR STITCHES LAST? The two quaint night-caps worn here by two modern maids are ninety-odd years old—thin with much washing and wearing—yet every stitch still perfect. "And what's odd about that?" asks the girl whose great-grandmother made those stitches. "We've always known in our family that no thread will stand up under yanks and pulls and wear and tear like J. & P. Coats best 6-cord."
