THE SKETCH COLUMN

For the first time in almost two years, column one, page filled with "Sketches," Jim we the patrons of Cove Creek high school are not going to stop until we have one, regardless of the stand the other members take. one, of The Democrat today is weekly blotter of local information. Jim's handling of the human side of life, his humorous man side of life, his humorous without any reason being given. vein and philosophical references to the little things which happen, together with an altogether original handling of the more momentous occurrences, combined during the past years in bringing letters of approval from every part of the nation. It is with a good deal of pride that The Democrat is able to return today with this feature, staff the popularity of which has not been approached by any other column published by The Democrat during the forty-nine years of its existence. Jim proposes to furnish the feature regularly. to furnish the feature regularly.

Little Journeys In Palestine

By J. C. CANIPE

Gethisemane lies at the foot of the Mount of Olives, beyond the val-ley of Kidron. We went into the Garden about ten o'clock at night and the moon was full and shining in all its glory. The shadow of the great olive trees were distinct on the ground. Somewhere, the great dive trees were distinct on the ground. Somewhere here our Loui prayed till His sweat became as great drops of blood falling to the ground. We kneeled here in silent prayer with the thoughts of that awful night in the life of our Lord. The Tree of Agony, under which Jesus was supposed to have prayed still stands. It shows the prayer of still stands. It shows the prayer of still stands. It shows the marks of

MORE ABOUT SCHOOL

.50 Editor Watauga Democrat:

I was sorry to note the resigna-tion of Mrs Mary Harris from our school committee in this district, as she is the only member of the committee who has shown by her ac-tions any interest whatsoever in the progress and welfare of our school. She has visited the school two or three times each week during the entire session, and stands at all times for the good of the school. She has tried all the year to have a coach for the girls' baskstball team, but was blocked at every turn by the other members of the committee. Everyone in touch with the condi-tions prevailing at the school know that we need a girls' coach to take care of our girls at home and away and we the patrons of Cove Creek

If this be true, we as patrons of the school are demanding the resignation of the other com-mittee members and the restoration of Mrs. Harris on the committee and that the board of education appoint two more members that at least have some interest in the school besides getting their folks on the teaching

Mr. Pyatte and that enabled him to keep in touch with the work he did, which was far above the average. I can't conceive of any committee having any interest at all in the school, dropping a man with the education and teaching experience Mr. Pyatte has, and putting a young man just out of school with no experience at the content of the following described property:

SILVERSTONE CITIZENS OPPOSE CONSOLIDATION

Editor Watauga Democrat:

We the citizens of Silverstone community, Watauga county, would be glad if you will give us a little space in your paper to say a word about our school at Silverstone, as cashed in at the bank crowd. In the stillness of the night I prayed to the Father of my Lord who prayed in this spot, "My soul is exceeding sorrowful unto death." It seemed that Jesus spoke to my heart and blessed it that night. The Catholics have built a large costry church in the garden. They have commercialized it and try to make money from admission fees. Soldiers also stand guard around and it does not seem Christian to see the moved out; but the board could not moved out; but the board could not The Armenians were having a feast day and the whole side of the Mount of Olives was covered with them on this night. One could hear them on this night. One could hear the music and dancing and the festivities going on by the thousands of the meanweld on the slopes of the hear enamined on the slopes of the music hand on the slopes of the music hand on the slopes of the hear enamined on the slopes of the a good school building here and lots of little tots from 7 years up to 14 If it had not been for our school-house here close to church, many of the children would not have heard a gosnel sermon or a gosnel sanguage. the children would not have heard a gospel sermon or a gospel song sung. So we think if any man would take this thing home to himself, he would not want to do a thing like this. We have a petition with 176 names on it who are heads of families in this community, that say we do not aim to have our school pose of becoming betseen the honorable board and let. say we do not aim to have our school taken away from us. We hope to see the honorable board and let them look it over and talk with us the first Monday in June.

We, the people of Silverstone, are not going to stand for it. We can't see why any board, county or state, would want to do a third by the third. would want to do a thing like this, when just four say take our school to Mabel and 176 say we are not going to send our children out of our community to school.

EXPRESSES APPRECIATION

Editor Democrat:

I desire to express to the people of Boone my full and complete appre-ciation for their co-operation during the period in which I served as superintendent of the water department I endeavored to serve the people well and whatever success I had in my efforts was largely due to the splendid spirit of helpfulness shown by the people. For all the many kindnesses shown during my administration in this department, I am deeply grateful.

More Miles Per Gallon

Is it surprising the number of cars that use 10 to 20% more gas than necessary when only a few minor adjustments would save many extra dollars? Experience shows that nearly every car that IS NOT checked with a Motor Tester at regular intervals is Wasting Gas? The facts are that all cars gradually "get out of line" from ordinary use and should be checked every 3,000 to 4,000 miles. The small cost is offset by the dollars you save in operation, to say nothing of the increased satisfaction.
