## YANKS CONTINUE DRIVE; GERMANY SEEN BIASECTED

**American Armies Break Into Other German Prize Cities, as British Tanks Close in On Hamburg Port City; Germany Cut in Half, Fighting on Two Fronts**

Paris, April 18—American armies, which already have virtually bisected Germany, broke into the prize cities of Leipzig and Magdeburg yesterday as British tanks tore loose on a 22-mile sweep that carried within 25 miles of the great port of Hamburg.

Dusseldorf, last major city in the Rhur still held by the Germans, also was entered by doughboys who now have whittled down the Rhur pocket to 125 square miles from its original 3,000 square miles.

The U. S. Third army stabbed to a point four miles from the Czechoslovak border, with one or more of its armored columns operating under a news blackout and was believed to be about 75 miles from Russian positions on the eastern front.

**Says Berlin Halved**  
A Berlin military commentator asserted that Germany had been cut in half and now was forced to fight on two separate battlefields. He did not say whether this meant that American and Russian forces had linked up or merely that the Reich had been cut in two geographically by American units reaching Czechoslovakia.

For the most part the American armies concentrated their might on clearing out fierce pockets of Nazi resistance which have developed in the big cities and there was no indication that the final drive on Berlin had begun—although the U. S. Ninth army enlarged its bridgehead across the Elbe river south of Magdeburg to a depth of five miles. Supreme headquarters disclosed today that these bridgehead forces of Lt. William H. Simpson had beat off the heaviest counterattack thrown against the allies since their crossing to the east bank of the Rhine weeks ago.

SHAEP said the Germans launched their counterattack some time Monday and the battle raged into the night, but by Tuesday morning it had been thoroughly repulsed.

## TRIBUTE IS PAID LATE PRESIDENT

**Memorial Services Are Held Here Honoring Memory of Former President Roosevelt**

Fitting memorial services were held in front of the Boone postoffice Saturday afternoon at 4 o'clock, out of respect to the memory of President Franklin D. Roosevelt, who died suddenly Thursday afternoon at Warm Springs, Ga.

"At this critical time in our nation's history," said Mayor Winkler, "when our armies and navies and those of our allies are knocking at the doors of Berlin and Tokyo, and on the eve of the great peace conference at San Francisco, it is indeed tragic that we should lose the services of our great leader, Franklin D. Roosevelt, President of the United States.

"As a man he was loved and admired by friends, and as our President for many years he steered us times our country has seen. Historians of the future will fix his true place in history according to his accomplishments and worth to his fellow man. He was a great leader and his place at this time cannot be filled with ease.

"Our new President faces great problems," continued the mayor, "and he has asked for the prayers of his people. It is fitting that during this hour we should grieve for the loss of our great leader, and help support the one who takes his place and asks for our prayers that he may be able to meet with wisdom and courage, the problems that will confront him in his new duties as leader of our great country and the world."

The program consisted of sacred music by the college and high school band; prayer by Dr. F. E. Warman; Scripture reading by Dr. E. K. McLarty; short talk by Rev. Edwin F. Troutman; talk by Rev. J. C. Canipe; prayer by Rev. J. K. Parker, Jr., and benediction by Rev. Robt. Brown.

Honor guests were Sergeant Clyde Rominger and chief Petty Officer Homer Brown, who made some timely remarks.

Greene, president of the State Merchants Association, who had asked that all stores of the state close their doors out of respect to the late President, while the services were being held in the White House. Some cities of the state, notably Charlotte, went even farther, and remained closed throughout the day.

## CIVIC GROUP ACTS ON HIGHWAY AND OTHER PROJECTS

**Recreational Center, Development of Highways, and Other Matters Come Up for Discussion at Chamber of Commerce Meeting Monday Evening**

The possibility of securing the construction of a new highway from Blowing Rock to the Tennessee line, together with a thoroughfare from this city into Linville, took the attention of the Chamber of Commerce at a banquet session held Monday evening, and there was preliminary discussion of a proposal to provide the city with a recreational center when construction of this sort is feasible.

Mr. H. W. Wilcox, president of the organization, submitted a letter from Mr. Z. V. Stewart, division engineer with the state highway system, relative to the highways in which the local people are most interested. Mr. Stewart explains that at the start of the war a survey had been made from Blowing Rock to the intersection of the Blue Ridge Parkway and construction work started. It is also pointed out that a survey order has been secured on the same route from Boone city limits a distance of two and one-half miles to the Payne Branch road.

As to the Boone-Linville route, Mr. Stewart states that the department has recommended that this road be added to the secondary federal aid system and that nothing will be known until the federal authorities are heard from. The official suggested that sentiment secured to back a request for a survey on 421 from Vilas to the state line, would be a good thing, so that citizens along the route would know where the road would be rebuilt, and govern their improvements accordingly.

In line with Mr. Stewart's suggestion, President Wilcox appointed the following resolutions committee to further impress the authorities with the desire for a survey on 421: Russell D. Hodges, Alfred Adams and W. H. Wilcox. Petitions will likely be circulated in the area affected by the road for signatures urging its construction.

**Recreational Project**  
A number of members of the commerce organization briefly discussed the need for a recreational project, and Ralph G. Greer, past commander of the American Legion, speculated on whether or not the Legion Park property might be developed to fit in with this proposal.

A committee to further study the recreation program was appointed by Chairman Wilcox and consists of Willis Chester, M. R. Maddux and Barnard Dougherty.

**New Bus Station**  
During the course of the meeting H. W. Wilcox stated that plans are almost completed by him for the construction of a modern and commodious bus station for the city, just as quickly as the necessary federal permit can be secured.
