TYPHOID CLINICS SLATED TO START HERE NEXT WEEK

Vaccination Dates for Different Sections of the County Are Given Out by District Health Department; Seek to Prevent Another Typhoid Epidemic

The typhoid clinics this year will begin on May 2, Mrs. Virginia Smith, county health nurse, announced today. Following is a complete list of the dates and places where the vaccinations may be secured. It will be noticed that some of the places, where clinics have been held in previous years, are omitted this year, due to the fact that only a few people attended the clinic and it is to save time, gas and expense that they are omitted.

"We would like to emphasize that only one trip will be made to each place," Mrs. Smith said. "So read your dates carefully and be there at the appointed time. Should you miss the local clinic, call by the health district office on Monday or Saturday morning and receive your dose there." Let's all co-operate and take the vaccination to prevent the epidemic we had last summer.
