North Carolina Farm Bureau Families

Helped Put Money In Your Pocket

1. Added \$100.00 to \$150.00 per acre to the income farmers received for Burley and Flue-cured tobacco in 1940, 1941, 1942, 1943, 1944 and 1945. (Quota Program). Sponsored in January, 1946, the Flannagan Bill which gives us the opportunity to improve and preserve our program for 1947 and future years.

(This measure gained its original sponsorship from the Watauga County Farm Bureau)

2. Added \$30.00 to \$40.00 per bale to the income farmers received for cotton in 1941, 1942, 1943, 1944 and 1945. (Bankhead Parity Loan Act). The Farm Bureau is bitterly opposing all price ceilings on raw cotton.

3. Added \$5.00 to \$10.00 per bale to price of cotton in 1944 and 1945. (Bankhead-Brown Amendment to Price Control Acts).

4. Added \$20 per ton on price of peanuts in 1944 and 1945 compared with 1943.

5. Added to income from cattle, hogs, milk, chickens, eggs, sweet potatoes, Irish potatoes and other farm products. (Steagall Act.)

6. Sponsored and fought for ample appropriations for Agricultural Adjustment Administration; Agricultural Conservation Program; Department of Agriculture; Experiment Station; Extension Service; Rural Electrification; Vocational Education, and all other Agricultural Agencies.

7. In 1945, North Carolina had 39,434 members. Let's make it at least 60,000 in 1946.

Two Men Working Together Can Do More Than a Thousand Working Separately

We Congratulate the Farmers of Watauga County on the Establishment of the

WATAUGA FARM BUREAU

and on the membership campaign which they are conducting this month, with the hope that many others will enlist in this worth-while organization.
