**News and Views
Of the Farmers**

By L. E. TUCKWILLER
County Agent

New Bulls
County agent L. E. Tuckwiller announced today that the Watauga County Artificial Breeding Association has made a great deal of progress since January 1. The Association has bred 66 cows. New members are coming in every day.

Word has just come to Mr. Tuckwiller that several new bulls have been added to the stud at Asheville, and within the next few days Watauga county farmers will be breeding their cows to these outstanding bulls. Tarbell Farms Peerless Royal, a Guernsey bull which was

sired by Foremost Peacemaker, has 129 AR daughters. He is out of a cow by the name of Tarbell Farms Royal Lenda, who made a world's record as a junior four-year old.

Tarbell Farms Peerless Royal has an American index of 11027 of milk, 541 butter fat; this record being made in 305 days on a twice a day milking.

Dairy experts throughout the South have said that Watauga county is now using some of the finest bulls that can be found in the nation.

Some of the farmers have an idea that they have to be big dairymen in order to use this service. Your county agent reports that this service is available to every farmer in Watauga county even though he only has one dairy cow.

Horse And Mule Clinics
Ninety-two Watauga county farmers had 157 horses and mules examined and treated at workstock clinics held during the past week. Dr. John G. Martin, local veterinarian, cooperated by administering the treatments for bots and worms and doing the dental work.

Excellent response was obtained in Upper Beaver Dam where 39 out of 45 horses in the community received treatment. A large percentage of the farmers have treated their horses for the past three years with excellent results. During the past summer farmers report seeing very few bot flies and as a result only a small number of knits were noticed on the horses. Also these horses were keeping in better shape with less feed than any horses in the county. Any community can get rid of bots by the wholehearted cooperation of the people as in Upper Beaver Dam, since the bot fly travels only a short distance during its lifetime.

Tobacco Meeting
A Burley tobacco meeting will be held at the Cove Creek school at 2:00 p. m. on Thursday, February 19th. All persons interested in Burley tobacco should attend. Colored slides will be shown. Mr. Roy R. Bennett, extension tobacco specialist, will discuss the production of tobacco from the standpoint of varieties, fertilization and curing.

Mr. Howard R. Garriss, extension plant pathologist, will bring the latest information on tobacco diseases and their control. Mr. James T. Conner, extension entomologist, will discuss the control and eradication of to-

bacco insects.

Craft Demonstration
Miss Rose Ellwood Bryan, extension specialist in food conservation and marketing, will conduct a demonstration on crafts in Boone on February 20. The demonstration will be held at the American Legion building and will begin promptly at 2:00 p. m.

There will also be a discussion and display of crafts at the meeting. Anyone who would like to do so, is asked to bring hand-craft articles for the display. All those who are interested are invited to attend.

**APPALACHIAN
HI SCHOOL NEWS**

Jack Norris Wins Competent Typist Pin

Each year the typing students of Appalachian high school strive to win awards and certificates for competent typing. The awards are based on ten-minute writings of a printed test published by Gregg Publishing Company. Certificates are awarded to students for typing at a rate of thirty words per minute without more than five errors in the ten-minute period. As the student increases his rate of speed and accuracy additional certificates may be obtained.

Jack Norris is the first student to receive a typing award this year, having typed at an average speed of fifty words per minute with only one error in the ten-minute period. The award for this achievement is a small yellow gold CT lapel pin.

Home Economics Class For Adults

The first meeting of the Home Economics adult class now being organized at the high school was held on Thursday evening. Plans were made for a sewing class which will meet at 7 o'clock on Thursday evenings in the high school Home Economics department. Miss Kelley again extended an invitation to all interested persons to come and join them. She also reminds the mothers that a nursery hour will be held at the same time for their youngsters.

DIVING PLANE KILLS BOY

Bellefontaine, O. — A light plane struck high tension wires above Indian Lake and hurtled into a group of ice-skaters, killing Donald Penrdo, 11. The pilot, Ned E. Buchenrot, 20, escaped with a cut chin and bruises.

Relatively large stocks of 795 million bushels of wheat were stored in all positions January 1, 1948, despite near-record disappearance since July 1, 1947, according to the USDA.

The sharp decline in the number of cattle on farms this year and reduced grain feeding probably will result in a smaller cattle slaughter in 1948 than in 1947.

In order that undesirable eggs, such as those containing blood spots, rots, and bloody whites, may not find their way to select markets, it is necessary that eggs be candled.
