**Gives Advice On Prevention of Polio**  
Chapel Hill — Precautionary measures against the possible prevention of the spread of polio have been printed and issued in a bulletin by Dr. O. David Garvin, District Health officer here, as a result of Orange county's only case of polio in the current outbreak.  
Dr. Garvin, in cooperation with the University of North Carolina officials, has had the entire Victory Village, occupied by married students and their families, sprayed with DDT and bulletins issued on precautions to be taken.  
These actions were the result of the only case to develop here. Dr. Garvin, who took a refresher course in the diagnosis and treatment of polio last spring at the Knickerbocker Hospital in New York, drew up the following list of precautions:  
1. Avoid unnecessary contacts with groups and crowds, especially indoors.  
2. There is no advantage in going away, chance of exposure is greater if you travel.  
3. Continue your normal activities.  
4. Treat every fever not readily explained as poliomyelitis and go to bed.  
5. Don't take medicine for protection. Do not use gargles or nose drops.  
6. Avoid fatigue.  
7. Avoid use of contaminated water.  
8. Avoid insult to mouth, nose and throat.  
9. Kill flies.  
10. Don't get panicky.  
Dr. Garvin pointed out that Dr. Charles Armstrong of the U. S. Public Health Service has demonstrated that "approximately 71 percent of the adult population have had poliomyelitis experience without having known about it. This means that 71 percent of adults have developed some immunity to the disease."  
"Dr. Philip Stimpson, specialist with the National Foundation," Dr. Garvin went on, "states that for every 1000 persons exposed to the disease, 45 will have the disease in such mild form that it will be disregarded or passed by as a minor illness."

**Wildlife Group To Hold Conferences**  
The N. C. Wildlife Resources Commission is sponsoring a series of wildlife resources training conferences to be held in each of the state's nine commission districts. Executive Director Clyde P. Patton announced today.  
The first conference of the series is scheduled for July 19-20 in district 1 at Edenton, to be followed immediately by the second to be held in district 2 at New Bern on July 21 and 22. Further conferences will occur on alternate weeks until September 3 when the final meeting will get underway at Waynesville in District 9.  
The conference will be attended by all commission personnel residing within each district, plus central office personnel and representatives of various state and federal agencies concerned with wildlife conservation. Tentative plans call for Judicial, Educational, Forestry, Soils, and Agricultural representatives in each commission district to attend the conferences.  
The purpose of the conferences is to acquaint Wildlife Resources Commission personnel with current trends in wildlife management, and to discuss law enforcement and field administration problems.  
The Wildlife Resources Commission believes that the conferences will be an important step in integrating wildlife con-

Only three persons of the 1000 will have enough symptoms to be diagnosed. Of these three cases only one will have any type of residual paralysis.  
ervation activities in this state, and bring about a more efficient administration of executive and field personnel.  
**4 WIVES, 1 DIVORCE: PRISON**  
Flint, Mich.—James N. Hamm, 25, went to the altar four times and to the divorce court only once, and so, he was recently convicted and sentenced to three to four years in State Prison for bigamy.

*but we couldn't do business without him!*

When you take your car to an Esso Dealer Station for gasoline, motor oil, or a complete lubrication job—you're not really "doing business" directly with Esso Standard Oil Company, even though we make the fine products you get.  
Instead, these 25,000 Esso Dealers from Maine to Louisiana are local, independent business men. You deal with the owners themselves—men who have invested their money and their initiative in building their own futures on serving you.  
From many competing brands of gasoline

and oil, these local business men have chosen Esso products. Year after year, they have seen first-hand evidence of the satisfaction to the buyer that Esso quality stands for.  
As of today, these able business men have, on the average, handled Esso products for 12 years each.

Many have bought from us for 35 to 40 years. Obviously, we couldn't do business without these men. And naturally we're proud of them—just as proud of them as we are of the 28,000 workers who are on our company payroll.  
Both groups—our own employees and these "partners" in their independent businesses—express this company's basic belief that individual enterprise, given its fair chance to earn fair rewards—is the best way and the American way to make progress with and for all the people of this country.
