The program, which offers freshman, upperclass and graduate courses for every quarter of the year, also makes it possible for honor students to graduate with only eleven quarters of residence instead of the usually required twelve.

Students who are finishing high school this spring will be able to enter summer school on June 12 and will complete one quarter's work by August 27.

Appalachian also will continue to offer courses designed particularly for students who plan to transfer to technical schools after one or two years of work, and for students who are taking preparatory courses for the healing arts, such as medicine, dentistry, and the like.

The college administration stated that it would urge all stuas possible, so that, if they are called into military service, they when they re-enter, at the same place the studies were interrupt-Lyceum Series Secures

Gragg, Rev. E. F. Troutman, and Mrs. Betty Matheson Edwards. The campaign will get under way Monday morning at eight o'clock when the key members of the campaign committee meet at the Skyland Restaurant for a kickoff breakfast.

"For many years," says Mr. Parker, "the Red Cross has been regarded as both the symbol and the source of aid to the distress ed in great disasters of peace or war. But never in its long history has it faced a larger test of tts responsibility than it does today.

### WILSON MAKES PLEA

The nation has chosen to seek peace through strength. The American Red Cross is the symbol of the strength and unity of a free people. When we give of Siewers, Harry Dennis, Wade our strength to help the weak, Gilliam, W. G. Weaver, Clyde the sick, the homeless, the hungry, the wounded, we actually grow stronger thereby. The Red Cross is the symbol of the dig-nity and the value of the human life. It is part of the American strength. — Charles E. Wilson. Director of Defense Mobiliza-

### Health Department In Statement Refers to Situation As "Serious"

Dogs continue to go mad in different sections of Watauga county, according to information from the health department, at least seven dogs having been found to be rabid since the start of the current epidemic.

A dog killed in Perkinsville

Monday was believed to have been rabid, but it was shot, and the head couldn't be examined. The same day the head of another dog was sent to the State lab

The quarantine of all dogs in the town, including town of Boone, will be continued through the month of March, on order of the county health officer, Dr. Mary Michal. This means that all dogs must be confined on the premises of the owner except when on leash or under the control of the owner or other responsible person. By this time, says Dr. Michal, no dogs, owned by responsible people should be at large within the county.

The health department state ment quotes chapter 106, article 34. part 7, section 106-376, State laws, in the matter of the quar-

"When quarantine has been established and dogs continue to run at large, uncontrolled by the owners or persons responsible for their control, any police of-ficer or deputy sheriff shall have the right, after reasonable effort has been made on the part of the officers, to find their owners, to kill said dogs and properly dispose of their bodies.

The law is further quoted as for return engagements at a saying that every animal having number of places where they rables or known to have been bitten by an animal having rabes shall be killed immediately by its owner or police officer, unless it has recently been vaccinated, when he shall be confined in quarantine until released by the veterinarian or health officer. A sick dog should be seen and diagnosed by the veterinarian, and if he has rabies, killed, and the head sent to the Laboratory of Hygiene at the State Board of Health.

> The health department adds: "This is a serious situation that endangers the lives of our citizens and children. Protect our children by reporting stray dogs. Call for help if your dog is sick. Do not handle sick dogs and examine them about the mouth but keep closely confined. Rabies is a deadly disease. Pet cats are a serious menace. Kill all cats."

## In Kables Emergency

Miles Forbes, chief of police Blowing Rock, tells the Demo crat that the dog quarantine or der of the health department is being enforced in the neighbor ing town, and is insisting that all the people cooperate in com-plying with this important edict.

Chief Forbes states that arrangements are being made by the city council at Blowing Rock to have a general vaccination of dogs there at the earliest possi-
