CHRISTMAS CARDS in steady stream, bring their appreciated tidings of joy, and we never tire of these messages . . of their varying shapes and col ors, and of the signatures of the people who think well enough of us to spend their time and coin to convey their wishes for our good fortune at the Yuletide . It's a wholesome old custom-this thing of exchanging greetings at the holiday period, and the pictures on the cards are good for many pleasant moments. . . . The snow scenes, the silver bells, the Santa Claus figures, and often, the scene of the Nativity embellish these messages, while on the lighter side are seen caricatures of frivolity, and occasionally the "gentleman songsters" . . . Indications are that the folks are going to have a good Christmas in this favored region, and most of the Boone folks expect to stay close by their own firesides during the festival.
