## Homecoming At Blue Ridge Held

By MRS. W. B. ESTES

Our home coming at the Blue Ridge Advent Christian Church was a success in spite of the down pour of rain. About ten o'clock we ventured out to the church. People came from Lenoir, Boone, Winston-Salem, and Avery county, as well as hosts of people from near by points.

The Rev. S. E. Gragg brought the morning message which everyone enjoyed. Rev. Mr. Gragg was pastor of this church for 32 years. At the age of 91 he is still very active.

After a bountiful dinner we went back and heard a wonderful message by the Rev. Lawrence Daye. His talk was "The Great Home Coming When Christ Comes."

A number of other ministers had a part as well as the singers. The day was really worth while and was surely enjoyed by all. There was about one hundred and fifty people out for the day.

Our pastor, the Rev. Mr. Honeycutt, taught part of the singers from Lenoir. We want to welcome everyone back the fourth Sunday in August next year.

Mr. and Mrs. G. L. Holder of Bakersville were week end visitors at the home of Mr. and Mrs. George Patrick of Blowing Rock.

We are sorry to know of the sick of the community: Mrs. Roe Harrison, Mrs. J. C. Church, Mr. W. H. Gragg. We wish them speedy recovery.

### Big Lift to Better Farming

Better farming, new methods and machines, better livestock, and improved marketing are helping bring about a new era of progress and prosperity in Dixie.

Rural telephones (they tripled in number since World War II in the area served by Southern Bell) are bringing a big lift to farm work and farm living. During the first eight months of this year, we installed more than 92,000 rural telephones.

We'll keep on putting them in as fast as we can—because we know how much they mean to prosperity on the farm and in town... and to a strong, well-fed America. More farm telephones also mean more valuable telephone service for everyone.

SOUTHERN BELL TELEPHONE AND TELEGRAPH COMPANY

## Blue Devils

(Continued from page one.)

Gragg and Coaches Everett and Leroy Rogers estimate that this sum is necessary to raise the standards of the Appalachian athletic program up to a safe and minimum standard.

Members of the Booster Club for the past three years pledged to renew their memberships and also assist in a vigorous campaign to improve the athletic program at Appalachian High School. Football costs \$1000 more than the usual receipts of the past three years, and large home crowds at five games will help clear this deficit. Booster Club membership costs \$10, which entitles each member to season tickets in football, baseball and basketball. Fred Gragg announced that the Booster Club was sponsoring a variety Hill-Billy musical show at the Courthouse Saturday night.

This benefit is the first of many planned for the coming school year, and tickets may be obtained from Booster Club members and high school football players.

## Child Welfare

(Continued from page one)

Money is provided in the budget to pay for school lunches. A child's needs are not being met if he is staying out of school. Children should benefit by the ADC payment and if they do not, arrangements may be made through the juvenile court for suitable placement of the children.

A new welfare policy which became effective July 1, 1952, requires the agency to promptly notify the proper law enforcement officer of the name and address of any parent whose family is receiving ADC because of that parent's having deserted or abandoned his family. The names of a number of parents have been reported to the solicitor in this district.

The county, state, and federal government share in financial payments to needy children who have been deprived of parental support. Beginning October 1, the federal share will be four-fifths of the first \$15 of the state's average monthly payment per person. The federal government will pay \$12 out of the first \$15 and the county and state each pay \$1.50. In the amount of money payment per person above the \$15.00, the federal government will pay one-half and county and state each one-fourth up to the maximum of \$30 for one

child, or the maximum of \$60 for one child and a needy relative and \$21 for each additional child in the family.

**GOOD TAX NEWS**  
Richmond, Va.—Virginians recently received good news from their Governor—they'll get another State income-tax reduction this year, amounting to nine per cent, which will apply to both individual and corporation returns. Last year, Virginians received a twenty per cent cutback.

## Tuberculosis Enemy Of Youth

By FRANCES C. FRANCIS

One widespread but dangerous fallacy about tuberculosis is that older people do not get the disease because it occurs primarily among the young. It is true that tuberculosis is the leading cause of death from disease among young adults between the ages of 15 and 44. Yet the proportions of deaths from tuberculosis among Americans over 45 years of age has been steadily increasing in the past few years.

In 1947, for the first time more than half the persons who died of tuberculosis in this country were over 45. This fact does not necessarily mean that people over 45 are more susceptible to tuberculosis than younger people. The larger number of deaths, in comparison with other age groups, may be explained by the fact that people are living longer today and that tuberculosis treatment is more effective today than it was 20 years ago. Moreover, the decrease in deaths from tuberculosis has been more rapid among the young than among the older groups.

But the number of deaths from tuberculosis among people over 45 does prove that no age is safe from the disease—that reaching the age of 45 does not mean a person has "outgrown" the possibility of getting tuberculosis.

Hence, those who think they no longer need take precautions against tuberculosis or check on the health of their lungs because they are 45 years of age or over are taking foolish and unnecessary chances. Regular physical examinations, including chest x-rays, are important for all adults, no matter what age group. The disease has no obvious symptoms in an early stage, but periodic medical examinations and chest x-rays give a person his best chance of detecting the disease, if it strikes, in a stage when it is easiest to cure.

Oneida, N. Y. — Stopping his car on a country highway, Lewis Eaton, Sr., of Knoxville, had the unpleasant experience of having it crashed into—by his daughter, Bertha. A few minutes later a third car, driven by a son, Lewis Eaton, Jr., banged into the rear of Miss Eaton's automobile. Eaton suffered chest injuries but the son and daughter were not hurt.
