Valentine Parties Held By Grade School Classes

A festive spirit has prevailed the school and has been felt in every classroom for the past week, with Valentine parties and colorful decorations the order of the day. It has been a big week in the lives of the children, particularly the little ones, with love and human kindness receiving perhaps a little more emphasis than at other times of the year.

Most of the children were on their best behavior all of Friday morning, giving special attention to completing their work promptly and well. At 1:30 for some classes and 2 o'clock for others, however, the long-awaited moment arrived—the sharing of fun, refreshments and Valentines.

The menu at lunchtime was also fitting for the occasion. Mrs. Buchanan and her corps of workers served turkey, rice and gravy, English peas, biscuits, butter, jelly and milk. Although a festive board, this lunch is really typical of the excellent meals received daily by the children at school.

Miss Walker's Sixth Grade
The class had its Valentine party Friday afternoon at 1:45. Sharon Collins, the student teacher (Misses Holland and Kivette), and Miss Walker served refreshments: candy, cookies and ice cream.

Thursday afternoon Miss Walker showed colored slides which she had made in Ireland, England, Scotland and Holland while she was overseas last year. Some of the pictures were of areas which were covered by the recent floods.

Miss Lanier's First Grade
Miss Lanier's first grade was entertained by Chuck Blanton Friday afternoon at a birthday party. He served ice cream, cup cakes, orange juice and Valentine candy.

The class has been using a new tape recorder for the past week,

and many of the pupils have become quite interested in improving their public speaking and oral reading ability. Each person is able to hear just how he sounds to others and to correct many faulty speech patterns. These have also been doing much creative writing, starting with only a picture or a title from which a story is developed. Some of the best work has been done by Margaret Rose Brown, Patsy Gaudin and Carl Benson.

EVEN THE MUFFLER DOES THINGS TO THE POWER

World's newest V8

BACK in the old days, any man who wanted real performance used a "cutout" on his car. It was a device that by-passed the muffler—because mufflers have always cut down on usable power. But it made a lot of noise. Muffling that noise — and still getting rid of exhaust gases as fast as they come from the cylinders — has stumped the automobile people for years. Now, Buick engineers have racked up another "first." They have come up with a muffler of supreme quiet and zero power loss—first time in history.

It is called a dynamic flow muffler. And it is one of many advances that make the great 1953 Buick Roadmaster even greater. For this automobile—the greatest Buick in fifty great years—has a brilliant new V8 Engine that can turn up 188 hp. And every one of its horsepower powers can be delivered as usable power—since none is restricted in muffler passage. As you would expect, there is more to this magnificent motorcar than power, great though it is. There's a finer ride, better maneuverability, easier handling—now with Power Steering as standard equipment.

ment, and Power Brakes optional at extra cost. And there's the amazing new Twin-Turbine Dynaflo bringing quieter, jet-fast getaway to complete and utter smoothness. Why not come in and see for yourself just how great the greatest Buick in half a century really is?
