

News Of The Grades At The Parkway School

The faculty and school personnel thank the parents and citizens for their cooperation in making the pie supper of November 23 a success. Total receipts were \$286.00 which has already been used to purchase additional books for the library.

We are grateful to the Cottrell Twins and Hamp Blackburn for auctioneering the pies and conducting the contests. They contributed much to the fun and success of the event.

New Bus Schedule
Due to the new schedule of Appalachian High School beginning December 1 Parkway buses will be able to leave school a few minutes earlier. This will be a great help during the short winter days.

4-H Meeting
The Parkway 4-H Club met Nov. 8 and was called to order by Mr. Richardson.

The following officers were elected: President, Bill Cook; vice-president, Judy Hollars; secretary-treasurer, Carolyn Harmon; reporter, Wendell Hampton.

The boys went to Mr. Moretz's room and discussed different phases of 4-H work.

Mrs. Cole's Second Grade
Many of us haven't been absent since school started. We haven't been real sick or had any accidents so far this year.

The second grade king and queen were chosen from our room. They were Harold Hodges and Regina Greer.

Fourth Grade News
Barbara Moretz was selected the queen and Jerry Winebarger the king to represent our room in the Harvest Festival.

Recently we enjoyed a doll show we planned for the purpose of buying a dictionary. We had fifty dolls in our show, and think it was successful. We were able to get a dictionary and also a Bible, from our collections. Each child in the room will write his name in these books, and they will be left in the room as a gift from this class.

The following boys and girls have perfect attendance for the year: Howard Triplett, Thomas Watson, Gail Cooke, Fay Ellis, Barbara Moretz and Lois Smith.

Local Mill Is Made Custom Mix Purina Station

Watauga Feed & Milling Company, Boone, has been made an approved Custom Mix Station according to an announcement just received from the Ralston Purina Company headquarters in St. Louis, Missouri.

This means that the local feed company is being provided with approved formulas for mixing locally grown grains with Purina Micro-mixed supplements and concentrates, enabling the farmers of this area to make the best feeding use of the grains he grows.

Before the company licenses a mill as an Approved Custom Mixing Station, the mill has to have grinding and mixing equipment of the highest efficiency. The equipment must be shown to be capable of mixing the supplements with the farmer's grain so efficiently that each mouthful of feed

will contain every ingredient in proper quality.

Purina's Custom Mix and Chow-mix Division has furnished the local mill with formulas for livestock and poultry feeding that blends Purina supplements with the farmer's corn, oats, wheat, barley, rye, or sorghum grains.

Laying flocks in North Carolina laid an estimated 111 million eggs during October—the highest October production of record.
