

### NEWS ABOUT OUR Servicemen

military training for men and women, headquarters of the Human Resource Center, and home of the USAF Officer Military School.

**HOWARD O JONES ARRIVES IN HAWAII WITH ARMY**  
Schofield Barracks, T. H.—Army Pfc. Howard O. Jones, son of Mrs. Bertie Jones, Blowing Rock, N. C., recently arrived in Hawaii and is now a member of the 25th Infantry Division.

Private First Class Jones entered the Army in February 1954 and completed basic training at Fort Leonard Wood, Mo.

### Glenn Funeral Held Saturday

Nattie L. Glenn, 69, died Saturday, April 9, at his home on Route 1, Sugar Grove.

Funeral services were held at 2 p. m. Sunday, April 10, at the Antioch Baptist Church, conducted by the Rev. W. C. Payne and the Rev. Bynum Tivette. Burial was in the Ward cemetery.

Surviving are his widow, Mrs. Kimmie Glenn; four sons, Leonard, Beech Creek, Ralph and Edgar, Sugar Grove, and Raymond, Zionville; four daughters, Mrs. Ruth Hicks, Banner Elk, Mrs. Ruby Norris, Guilford College, Mrs. Willys Norris, Greensboro, and Miss Edna Glenn, Sugar Grove; and 18 grandchildren.

### Dr. Lawrence Gets Big Fish

Palatka, Florida, April 9.—Dr. C. Ray Lawrence, 418 Grand Blvd., Boone, N. C., was a recent fishing visitor in Putnam County, nationally known as the "Bass Capitol of the World." While here he tempted these famous Florida largemouth black bass with live shiners and recorded a catch large enough to enter in the live bait division of the Junior Chamber of Commerce sponsored Putnam County Fishing Tournament. The bass, weighed in at Camp George, near Fruitland, was caught in Lake George and hit the scales at 6 pounds and 9 ounces.

The fighting bronzeback wasn't large enough to win the capturer one of the more than 60 trophies offered during the five month tournament, which opened February 15 and will close July 4.

### CAP Gives Facts About A-Bombs

No longer can any American avoid the responsibility for learning everything possible about personal and community survival.

This is the key admonition in an illustrated leaflet just published by the Federal Civil Defense Administration, entitled "Facts About the H-bomb."

One million of the leaflets, designed to tell Americans how they can survive a superbomb attack and the accompanying peril of radioactive fall-out, are being distributed throughout the country through regional, State and local civil defense agencies, schools, churches, industries, national organizations and other channels. "The H-bomb," the leaflet points out, "is bigger than the A-bomb—but it is still a bomb. It has its limits, as does any other weapon. It makes the civil defense problem larger, but not different."

Demonstrating that there are practical limits to the amount of destruction that can be caused by a single bomb of any kind, the following statistics are cited:

A bomb 1,000 times as powerful as the Hiroshima bomb will not cause damage 1,000 times as far away—only 10 times as far. It will harm an area only 100 times as large—not 1,000 times as large.

The Government needs more engineers, according to the Civil Service Commission, which has taken steps to inform engineering students on every campus that Federal service offers them "unprecedented opportunities to participate in challenging work of vital importance." The Government employs about 47,000 professional engineers and "more are needed."

### Farm Questions And Answers

**QUESTION:** The first calf dropped by one of my beef cows was small. What are my chances on the next one?

**ANSWER:** Records show that cows are consistent in the weights of calves they produce. Those with calves below average one year usually produce another lightweight calf the next time, even though they may take a year's rest.

**QUESTION:** Does topping and suckering influence the nicotine content in tobacco?

**ANSWER:** Yes. Both produce a higher nicotine content in tobacco plants. The earlier you top the plant and the fewer suckers you allow to grow, the higher the nicotine content. This occurs because nicotine made in the roots is concentrated in the growing top leaves, rather than being diluted into extra sucker growth.

**QUESTION:** After I store my grain under Commodity Credit Corporation can't I just forget it?

**ANSWER:** No. Loss in quantity and quality will be charged against the farmer when final settlement is made or he may lose his loan protection entirely. It's a good idea for the farmer to make frequent checks on the grain and take measures to correct anything that may need attention.

Pocatello, Idaho—John Gibbs and Floyd Allen trudged 7 miles to Henry, Idaho, recently in order to thumb a ride into Pocatello after they got stuck in heavy drifts near Grays Lake. They knew it wouldn't do any good to call for the snowplow because they had been driving it.

### Hints For Homemakers

**PROMOTE FIRE SAFETY, HEALTH**—Never burn papers on a windy day when there's danger of sparks setting fire to any house, shrubbery, clothing or outbuildings.

A ditch three feet wide, five feet long, and three to four feet deep with wire fencing over the top makes a good farm yard incinerator. The wire should be anchored on sides and ends.

Fireplace care: use a wire-mesh screen in front of fireplace. Be sure the fire is out before you retire or leave the house. Sparks from unguarded fireplaces can start serious fires.

Smokers: don't smoke in bed. Smoking in bed can be fatal. Fumes from burning cloth may overcome or asphyxiate you before fire reaches you. Place plenty of ash trays about your home for smokers. Keep matches in safe containers and away from children.

A bright future—All of us have emotional patterns which usually become more and more fixed as we go through life. How do you

feel about your life now? Are you enthusiastic about many aspects of it? Are you able to accept your limitations and utilize your abilities to the fullest?

Your happiness at any time of life depends not on your age, wealth, position in life—but upon yourself. Look ahead, plan wisely and you will find that you can accept changes as they occur, that each phase of life has its own special fascinations, its own satisfactions and rewards. As time slips by and "the future" becomes the present, you will find it is bright—because you have made it so.

### COMPLETES BOOT TRAINING

S-R Joseph H. Norris, will conclude three months boot training April 15 at Great Lakes Naval Training Station, following which he will receive two weeks' leave. He is the son of Mr. and Mrs. Grant Norris, of Zionville.

### PROMOTED

Fort Campbell, Ky.—Pfc. Monroe R. Nichols, son of Mr. and Mrs. M. R. Nichols of Deep Gap, N. C. has recently been promoted to his present rank. He is a member of the 189th Airborne Infantry Regiment, Company "F" of the famed 11th Airborne Division, stationed at Fort Campbell, Ky.

### JUNIOR MILLER AND JOE C. ROBINSON IN AIR FORCE

Lackland Air Force Base, Texas. Junior Miller, 19, and Joe Clyde Robinson, 21, are completing their Air Force basic military training courses at Lakeland Air Force Base, the "Gateway to the Air Force." Miller is the son of Herman Bryan, Route 2, Box 174, Boone, N. C., and Robinson is the son of Clyde Robinson, Reese, N. C. Their Lackland training is preparing them for entrance into Air Force technical training or for Air Force duty assignments. The course includes a scientific evaluation of their aptitude and inclination for following a particular career field. Lackland, situated near San Antonio, is the site of Air Force basic

### Paul Said To Mr. Ed:

TEN LITTLE MOTORISTS, driving in a line;  
one tried to pass the rest then there were nine.

NINE LITTLE MOTORISTS, sadly I relate;  
one passed a traffic stop then there were eight.

EIGHT LITTLE MOTORISTS, young and very deft;  
one tried to show such skill seven then were left.

SEVEN LITTLE MOTORISTS, touring in the six;  
one failed to dim his lights then there were six.

SIX LITTLE MOTORISTS, driving in the rain;  
one skidded on a curve four now remain.

FOUR LITTLE MOTORISTS, coming from a tea;  
one faced about to chat then there were three.

THREE LITTLE MOTORISTS, this is sad but true;  
one slumbered from fatigue then there were two.

TWO LITTLE MOTORISTS, racing just for fun;  
one passed upon a hill then there was one.

ONE LITTLE MOTORIST, though it's seldom done;  
lit a match to gauge his tank now there are NONE.
