Members of the Junior Woman's Club met at the home of Mrs. James Winkler, sponsor of the club, on Thursday evening, April 7.

The meeting was called to order by the presidents, Mrs. James Storie, and members united in reading the club woman's collect.

Dr. Lawrence Owsley was present, at the request of members, to answer questions pertaining to cancer. Dr. Owsley said that the biggest contribution the American Society of Cancer is that of helping to educate the public about cancer.

The club voted to help promote a project requested by the Boone Chamber of Commerce, urging townspeople to have roadside mailboxes where desirable, and also have name plates or similar markers at their homes—in the yard, by the driveway or some other suitable place, to assist tourists or visitors coming into the community.

Mrs. Howard Williams, chairman of the local cancer drive, announced that the drive would begin on April 12, and members of the club were designated areas in which to solicit.

The kindergarten committee announced that there are several vacancies in the kindergarten at the present time for 4, 5 and 6 year old children.

The club also voted to write collectively and individually to Sen. H. B. Perry, urging his support of a bill now before the legislature controlling the sale and distribution of barbiturate drugs.

Plans were made for the May meeting, at which time officers for the incoming year will be installed at a formal banquet.

At the close of the business meeting, Mrs. Winkler invited members and guests into the dining room and refreshments were served from a beautifully decorated table in keeping with the Easter season.

Butter Spreads Sandwich Fame

The phrase, "bread and butter" became part of the framework of the English language because these two foods are basic in the daily menu. Butter gives flavor and moistness to bread. It also has a flavor-carrying factor that makes its use standard in sandwiches. Butter actually distributes the goodness of the filling throughout the sandwich.

Since butter is so delicate a spread, it must be protected from air, light, the hazards of shipment and from stronger flavored foods near it. It will stay creamier—fresh if packaged in parchment or foil wrap plus a paraffined carton. Unless used immediately at home, butter should be kept in the carton to guard against more dominant flavored foods in the home refrigerator.

1 hard cooked egg, chopped
2 tablespoons chopped green pepper
1/4 cup finely diced celery
1 teaspoon prepared mustard
