

News Of Week At Green Valley School

Joe Phillips has been absent from school due to illness.

The boys and girls have completed their North Carolina booklets. The table of contents contains three North Carolina songs, facts, m. s., toast, State bird and flower, questions and answers, seal, motto, flag, and the Venus Fly Trap.

The following pupils still have perfect attendance for the year: Dewey Culler, Jerry Wineberger, Linda Carroll, and Jeannie Greene.

Our community and school experience a great climax to a year's work each time the annual PTA chicken supper has been completed. It has become traditional with our people and also with the people from all over the county who are becoming acquainted more and more each year with the wonderful meal and fellowship. The activity is a great asset to our community as a means of public relations and also of acquiring funds which are used for projects related to the enlargement of the facilities in the school.

Our people are to be commended for a job well done again this year. The cooperation of all groups is responsible for the great success attained. Special thanks must be said to the following groups.

Parking the cars—the Green Valley Scouts.

Publicity—Mrs. Earl Greene.

Decorating—Mrs. Ralph Buchanan, Mrs. J. T. C. Wright.

Cooking—Mesdames Blaine Miller, Roscoe Greer, Wilson Brown, Raymond Jones, George Moretz, Sam Moretz, China Lavender, By-

num Proffitt, and Miss Pat Proffitt.

Serving Food—Mesdames Russell Norris, Clint Miller, C. R. Kinney, Warren Greene, Coy Greene, John Greene Gladys Stevens.

Serving tables—Mesdames Paul Winkler, Tommy Greene, John Green and a large group of grammar grade girls.

Entertainment—Mrs. Ralph Buchanan and a group of school children.

Tickets—Mrs. George Moretz, Mr. Clyde Williams, Dr. J. T. C. Wright, Mr. Ted Hagaman, Mr. John Marsh.

Dishwashing—Mesdames Hubert Norris, Clyde Williams, Paul Greene, Willard Norris, Woodrow Starnes, H. L. Coffey, Herbert Foster, Troy Norris, Bill Krider, Alex South, Ted Hagaman, Alfred Adams.

We also want to thank all of the many more who helped whose names are not on this list. Also those who bought the tickets and made it possible for the supper to be the biggest chicken supper we have ever had.

The Polio Vaccine

The Watauga County Health Department came to our school and administered the first shots of the Salk vaccine to our first and second grades last week.

School Ground Improvement

The improvement of our school grounds is moving along at a rapid pace. People entering the school will notice that 50 pine trees have been set along the left drive. We hope to have these pines on each side of both drives. Something over 400 pine seedlings have been

set on the lower end of the playground hill. These were placed where the erosion had been the worst with the hope that it might be checked or completely stopped. A small start has been made on the hemlock hedge which we hope will someday completely border the playground area. The various grades have done a fine job in preparing the soil and helping to seed the various assigned areas of the hill leading to the playground. They are being trained to help care for this area also.

All of these shrubs and seedlings have been donated by the patrons of the school and many more have been donated which have not been delivered and set as yet due to a lack of time. Most of the work on this project has been done by school children assisted by their teachers, the principal, bus drivers and the janitor. A great spirit of cooperation is in evidence in all of the work that is being carried on.

If there are any patrons who have shrubs to donate, or have advice on the improvement of the grounds, please feel free to make contact with Mr. Marsh at any time.

Mrs. Greene's Third Grade

We were sorry to lose two members of our class recently. Carolyn and Grady Miller moved to Parkway School.

One of the most interesting projects in our room is "Building Our Community," a history project. Some of the buildings already completed are: Meat Camp Baptist Church by Floyd Greene; Old Green Valley School, by Gary Brown; Proffitt's Grove Baptist Church by Jimmy and Harold Proffitt; a house of today by Bernard Johnson; and a dairy barn by all

Garden Time

By ROBERT SCHMIDT

It is a well known fact that the early tomato blossoms or blossom clusters often fail to set fruits. This may be due to a number of factors but is usually due to cool temperatures early in the growing season when the first two clusters of blossoms appear. It has been found that applications of certain plant hormones to the blossoms will cause fruits to set. In many cases these fruits are seedless or almost seedless. Experiments have shown that, in the case of tomatoes, it is only worth while to spray the hormone on the first two or three clusters. These hormones

are now available at any seed store under trade names such as "Blossom Set," "Sure Set" and "Fruitione." They should be used according to the directions given by the manufacturer, otherwise they may cause damage or heavy wrinkling of the tomato fruits. The material should be sprayed on the open blossoms with an atomizer or fine spray. Since all the blossoms on a cluster do not open at one time it will require at least two applications for each cluster. Many commercial growers are now using fruit setting hormones successfully and there is no reason why they should not be successful in the home garden especially in cool growing season. The fact that many fruits would be seedless might be an added attraction or incentive.

Reports indicate that the North Carolina late spring harvest cabbage crop is in only fair to poor condition due to the late March freezes.

the boys in the room. The girls are helping make the furniture and costumes of long ago and now.

Flowering delights FOR MOTHER'S DAY

If your Mother is living give Her a lovely corsage, or flowers for Her home. If She has passed on, pay tribute to Her memory with flowers for her grave.

Berea Alumni To Gather Saturday

Berea College Alumni living in Watauga, Ashe, Avery and Caldwell counties will meet Saturday at 6:00 p. m. at the Boone Methodist Church for a picnic and reunion. It was announced this week by the Rev. E. H. Lowman. All Berea

graduates are invited and expected to attend with their families and a picnic basket.

United States exports of all tobacco production combined during 1934 were about one per cent lower than in 1933 but were still well above the level of the preceding years.

INSTALLMENT BUYING

As of January 31st, installment credit aggregated \$22,438,000,000. Auto loans amounted to \$16,459,000,000; loans for other consumer goods, \$5,609,000,000; loans for home repairs and modernization, \$1,574,000,000; and personal loans, \$4,794,000,000.

Punch-line to the year's hottest power story—

Chevrolet "Turbo-Fire V8"!

There's only one way you'll really discover the hottest power story of the year. Get aboard a new Chevrolet that packs a bundle of velvety TNT under the hood—the new "Turbo-Fire V8"!

For this is the engine that's writing a whole new chapter in the book of automobile performance records. This is the engine that has stock car timers doing a "double take" at their stop-watches wherever experts gather to compare the abilities of the 1935 cars.

For example, in the recent NASCAR stock car competition at Daytona Beach, Florida, Chevrolet literally ran away from every other car in its class—and a raft of others besides. In the one-mile straightaway run for low-priced cars, the first two places—and six of the first ten—went to Chevrolets. And in acceleration runs from a standing start against all comers, Chevrolet beat all other low-priced cars—and every high-priced car except one!

What's behind this blazing performance? A compact honey of a V8 that only the world's leading producer of valve-in-head engines can build. Chevrolet's new "Turbo-Fire V8" has the shortest piston stroke in the industry (that means less piston travel... longer engine life!) And it delivers the highest power per pound of any V8 in the low-priced field. It's so efficient that it requires only four quarts of oil instead of the usual five... needs less radiator coolant, too. It's the most modern V8 under anybody's hood!

But the thing you'll like most is the way it puts a new kind of fun in your driving life. You're in charge of 152 high-spirited horsepower with the new "Turbo-Fire V8" and if you're looking for even more excitement, the new "Super Turbo-Fire V8" (optional at extra cost) puts 180 h.p. under your toe.

Pick the one you'd rather have fun with, then come in and get behind the wheel. You'll see why the Motoramic Chevrolet is showing its heels to every one else on the road!

No other low-priced car has any—no high-priced car has all—of these great Chevrolet features!

Body by Fisher—You see it on some of the highest-priced cars. Nine engine-drive choices in any model—The greatest choice going. 12-volt electrical system—Twice the voltage of other low-priced cars. Anti-Disc braking—A Chevrolet exclusive for heads-up stops. Outrigger rear springs—Wide-spaced for steady cornering. Ball-Race steering—Turns on ball bearings. High-Level ventilation—Cleaner, fresher air. Double-Arch cowl construction—Extra strength and safety.

Combine your new Chevrolet purchase with your vacation plans! Order a new Chevrolet through us, then pick it up at the plant in Flint, Michigan, see Chevrolets built, if you like, and drive yours home. Chances are, you'll save a substantial share of your vacation travel costs!
