IRON GOES VISITING
Turners Falls, Mass. — Mrs. Jeanette Lowe, a third-floor resident of an apartment building, went out, leaving her iron on. The iron burned through the ironing board, fell to the floor, burned through the floor and dropped into the second floor apartment of Mrs. Stephan Broz. Had not the fall of the iron disconnected the iron, it might have caused more than a smoldering fire, firemen said.

Leaf Basket Patent Given

A patent has been issued to a Yadkinville man who has developed a new type tobacco basket after three years of experimentation.

He is John L. McKnight, who was granted a patent last week by the Patent Office in Washington, D. C. The patent was applied for March 10, 1953.

The patent was secured through the efforts of Eaton and Bell, patent attorneys of Charlotte, and it has been assigned to J. M. McKnight and Sons, whose plant is located five miles South of Yadkinville, at Courtney Junction.

This company has been making the regulation type tobacco baskets for nine years, the same type made by other companies near here in large quantities. The present price for the baskets made

here by four companies ranges from \$1.50 to \$1.75, and they are delivered all over the country where tobacco is grown in lots of 500.

The patent obtained by Mr. McKnight covers the construction and make-up of the basket, but not the material. Mr. McKnight said the basket would not be made of wood as the present baskets are, and he is now experimenting with two or three other materials.

He is not sure when the new type basket will get into production, but said it would be a gradual process in which experiments will be made in different materials, with the eventual product to sell at a comparative price and weight the same as present type baskets.

The new type basket, if proven successful, may revolutionize the whole tobacco basket industry here, and would also affect many persons who now furnish present basket makers with materials.

TO GREET YOU AT
Christmas

Of great value were the gifts brought to the Babe of Bethlehem by the wise men, but none was so precious as the love and adoration that filled their hearts. May we all bring to His Birthday the same spirit of devotion, and find in its glad tidings the same inspiration. May you and yours experience in your hearts all the wonder and joy of Christmas.
