

## Valle Crucis School News

We thank the Valle Crucis Community Club for their generous contribution of drainage pipe to the school project of beautification of our school grounds.

**Safety Patrol**  
The Safety Patrol is doing a good job. We have had only a couple of minor accidents since the beginning of school, partly due to the constant vigilance of the members of the patrol.

**Recent Visitors**  
Mr. Hinkle came recently and presented a helpful program. Many of our students won awards for Bible verses learned since his last visit.

**Mrs. Taylor's Second Grade**  
We have just finished making our school community map. Now we can start at the school and take our friends home with us on a make-believe trip. On our map we painted the roads, put up road signs, made bus cut-outs with their numbers, made symbols for our school, homes, and churches in our own communities.

We have learned that maps are used as guides to take us new places. Our study of our community may lead us to be more interested in maps.

**Mr. Greene's 4th and 5th Grades**  
The fourth grade has spent the past few days making globes. We blew up round balloons and put paper and paste on the outside. When the paper and paste had hardened, we painted the globes blue. The next step was to draw all the continents on the globe and paint them different colors. We are studying the world in our social studies books.

Alice Hicks was elected president of the fifth grade. We are sorry that Eunice Caldwell left us. She moved to West Virginia.

We have been doing paper sculpture work in art. Some of us made funny-looking faces out of colored construction paper.

**Mrs. Michael's Seventh Grade**  
We enjoyed two new filmstrips which were very appropriate for the times. One was "Through the Suez Canal." Since then we have been more conscious of the news and it has a clearer meaning for us. As a whole, the class was surprised at the number of workers it takes to keep the Suez Canal in repair and to operate. The other filmstrip was "How We Elect Our President." Discussions on party platforms, campaigns, the electoral vote, and the popular vote helped us to better understand the returns as given over television on the night of November 6.

Two groups of students have worked faithfully on the classroom bulletin board in our hall. Both did a splendid piece of work

and we are proud of them both.

**Mr. Triplett's Eighth Grade**  
The girls in our class, with the help of the class artist, J. D. Edmisten, have a lovely display on the hall bulletin board on our side of the building. We have the Pilgrims going to church, and what a lovely drawing it is by J. D., and on the other end of the board we have depicted a typical Pilgrim village. At the top of the display we remind all that "America Should Count Its Blessings And Be Thankful." We appreciate Mrs. Michael's help with this bulletin display.

### Comfort Vital To Good Looks

There was a time when comfort was the least considered element of fashion. However, designers have come to realize that when a lady is not comfortable and relaxed in her clothes, it is impossible for her to look her best.

Naturally, the first item of clothing to be considered is a properly-fitted foundation garment. There are so many styles and designs on the market that there is no excuse for being uncomfortable in bras, girdles or even corselettes. Keep trying until you find the one designed with your type of figure in mind.

The requirements of a young girl of sixteen and a mature woman of forty are not the same. The corselettes found in fine stores are a boon to the mature woman. Made of nylon elastic, they are tough and strong but, at the same time, light, cool and comfortable.

The corselette will be more expensive than the girdle bought for a young girl, but is probably the most important single piece of clothing to be chosen. It is just what the name implies, the foundation for your other clothes.

Not only have foundation clothes been made more comfortable through the years but street clothes, play clothes and evening clothes, as well. Top designers have tried, in recent years, to put over uncomfortable designs as high style, only to find that American women will not accept them. This should be considered a feather in our caps.

North Carolina small grain specialists report that each of the small grain crops of wheat, oats, and barley made record yields and production in 1956. The yield of wheat per acre is estimated at 25.5 bushels. This is 2.5 bushels more than the old record of 23.0 bushels produced in 1951.

## Dixie-Home Presents Their Pre-Holiday Sale of Thanksgiving Food Specials!

Shop & Save With These LOW Prices!

It's time to talk turkey about your Thanksgiving dinner! We have everything you need for a truly festive feast... and all at prices that are really something to be thankful for! You'll like our wide selection of top-quality foods... come see!
