Sunday School Is Challenged

It is reported that the boys of the Junior Department of the Boone Baptist Church Sunday School "really started something" last Sunday when they challenged the girls of the same department to a sixty-day attendance contest beginning March 10th.
The losers—who could very well be the challengers, say the girls—will give a party with "cats and everything" for the winners when the contest closes. Both sides say they are going to work hard to win, and their efforts are expected to result in greatly increased attendance in the department during the next sixty days.

Women Here Best Dressed

American women, as a group, are the best dressed women in the world. Of course, this is mainly due to the prosperity found in this country, but the good sense and good taste of American women have had a hand in making this true.
Women in this country, on the whole, want their dollar's worth. Because of this, there are good looking, well-made clothes available in almost all price groups. Coats, dresses, shoes, lingerie and accessories that are sound fashion and sound investments are seen in stores all over the country.
We are less prone to wear a design that is a fad or "in style" at the moment than the women of other countries.
Right after the second World War, we went overboard for the new look. The exaggerated length of skirts was accepted.
Looking back, the reason for this seems to be that women were so tired of the unattractive short skirts made necessary by the shortage of material, they were happy for a complete change. They got it!
However, since that time women have stayed on an even keel. Fashion magazines are a big help. They inform women living in small, rural towns of the latest thing to be found in the large metropolitan cities.

KEEPING IN TOUCH

That mail-box on the city corner . . . that post office at the country crossroads . . . what would we do without them? Life is too complex for us to live by ourselves. Man's interests and his welfare reach far beyond the boundaries of his community. Communication with people and corporations hundreds of miles away is a part of modern living that we take for granted. We have to "keep in touch."

But long before life became so complex, men discovered their need for another kind of communication—prayer. The courage and faith and hope which steel men for the challenge of each day come from God. The deep spiritual needs of the soul can be supplied only by keeping in touch with God.

We think our mail-boxes are indispensable! Even so, one church means more to a community than all its postal facilities. For not so long ago men lived very happily without a postal system. But men have never lived happily without God!

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
