

# News From Cove Creek Elementary School

The P. T. A. will meet Monday night March 18 at 8:30 at the high school. There will be a covered dish supper.

The highlight of the evening will be a fashion show by Mrs. Pession's Home Economics class. Everyone is invited to meet with us.

**4-H Club**  
The Junior 4-H Club met Monday, March 11th in the Cove Creek School Auditorium.

The program chairman gave a short program on "Raise a Square Meal Around Home." Mr. Richardson and Miss Street demonstrated the seven basic foods. Mr. Richardson gave some papers on the kind of seeds to plant for our climate.

**Mrs. Ellison's First Grade**  
We were glad to get our number books finished and to take them home.

Our pictures came and were real good.

Judy Wineberger has been visiting her brother in Toledo, Ohio.

Norma Peeks visited over the week end in Elizabethton and Johnson City.

Mrs. Ralph Glenn, Mrs. Bennie Baird, Mrs. Carter Matheson and Ronnie Matheson visited us last week.

The following children have perfect attendance for this semester: Barbara Baird, Katy Sue

Greene, Donna Townsend, Darrell Arnett, Robert Barnes, Bert Church, Tony Combs, Gene Deal, Lynn Greene, Henrie Matheson, Michael Reese, Gale Townsend, and Phillip White.

Gene Deal visited in Asheville Sunday.

**Mrs. Henson's Second Grade**  
Roger Lee Dotson had a birthday party March 7. His father brought cakes, candy and ice cream for everyone. Games and contests were enjoyed by all. The winners were Danny Bingham and Barbara Hagaman.

Other children having birthdays in March are Harvey Gilliam and Danny Bingham.

**Third Grade News**  
The following boys and girls have a perfect attendance record: Faith Safian, Norma Lee Stansberry, James Baird, Dale Johnson, and Steve Rominger.

Children having birthdays in March are Norma Lee Stansberry, James Campbell and Deway Jones.

Mrs. Glenn's 5th and 6th Grades  
Our sympathy goes out to Jeanne Hayes who lost her father last Friday.

Mr. Hinkle visited our school recently and the following received awards: Don Hagaman, Gary Isaacs, Kenneth Combs, Judy Anderson, Marie Baird, and Bobby Ward.

The following from our room are taking piano lessons: Marie Baird, Bettina Danner, Barbara Jean Hayes, Agnes Gray Shipley.

**VACCINE SURPLUS DOWN**  
Unused polio vaccine no longer is piling up on the manufacturers' shelves, reports Surgeon General Leroy E. Burney of the Public Health Service. The backlog of almost 26,000,000 cubic centimeters of unshipped vaccine, reported in January, has been reduced to less than 15,000,000 cubic centimeters, he says.

When it comes to baking a cherry pie, this young lady has all of the answers. She is 17-year-old Mary Ann Bartholomay, of Henrietta, N. Y., who won the 25th annual cherry pie baking contest sponsored by the National Red Cherry Institute. Using a General Electric Keyboard range, Mary Ann competed against girls from every state of the union as well as Alaska, Canada and Hawaii. The contest was held at the Sheraton Hotel, Chicago, where the grand ballroom was transformed into a giant electric kitchen. For her pie baking skill, Mary Ann won the Keyboard range in which she baked her winning pie, a college scholarship, and a trip to Washington, D. C.

### Champion Cherry Pie Recipe

**Filling**

2 (No. 303) cans frozen cherries, thawed and drained (3 cups)	$\frac{1}{2}$ cup sugar*
$\frac{3}{4}$ cup cherry juice	1 tablespoon butter
$\frac{3}{4}$ tablespoons cornstarch	Pinch of salt
	4 drops almond extract
	Few drops red food coloring

Measure cornstarch into saucepan; stir in cherry juice slowly. Cook over high heat, stirring constantly until thick and smooth. Remove from heat, add sugar, butter, salt, extract and red coloring. Cool sauce while making crust. Fold sauce into cherries. Pour into 9-inch pie plate. Arrange pastry strips, lattice fashion, over filling. Bake at 400° F. for 15 minutes, reduce temperature of oven to 375° F. and continue baking about 40 minutes.

\*If canned cherries are used, increase sugar to 1 $\frac{1}{2}$  cups.

**Crust**

2 cups sifted all-purpose flour	$\frac{1}{2}$ cup lard
1 $\frac{1}{4}$ teaspoon salt	5 to 7 tablespoons ice water
$\frac{1}{2}$ cup vegetable shortening	

Add salt to sifted flour and sift into bowl. Cut in shortening with pastry blender until mixture looks like meal. Add the ice water, mixing lightly with a fork until all the flour is moistened and the dough follows the fork around the bowl. Place dough on wax paper and form into a ball by pressing together. Roll  $\frac{1}{4}$  of dough onto a slightly floured pastry cloth. Fit into a glass pie plate. Trim edge. Roll remaining dough and cut strips one-half inch wide for lattice.

## Hog Killing Days Uncertain

If you haven't killed hogs yet, it's too late—unless you are close enough to a locker plant that can process the meat for you. The weather after March 1 is usually too uncertain to do farm curing.

John A. Christian, animal husbandry specialist for the N. C. Agricultural Extension Service at State College, says there are still "many hogs on Tar Heel farms to be slaughtered for home consumption." These hogs can safely be processed most any time where locker plants are available. Most communities have locker and processing plants available to slaughter, process and cure these "late" arrivals.

The important thing in home hog killing are, of course, curing and care of cured meats. Meats hanging in the smokehouse must be taken care of to see that insect damage is kept to a minimum. Beginning March 1 this becomes highly important, declares Christian.

Any meat that is cured in a locker plant and brought back to the farm during the spring and summer months should be bagged and hung immediately to allow for moisture loss so the meat will age properly. At no time should cured meat be put on shelves or in baskets. This causes molding and off-flavors. It takes about six months for a ham to develop the right age flavor, says the specialist. Hams hung during the summer months will attain a high flavor as temperature in the 80's is necessary to develop "high age" flavor.

Christian reminds farmers that in this day and time "Anytime is hog killing time," but insists that temperature is the hog killer's biggest enemy.

## Distinction List Is Given At Cove Creek

Distinction list for six weeks grading period:

9th grade—Carolyn Stewart, Eloise Teague, Laura Milton Church, Lois Dancy, Joan Eggers, Carolyn Miller, Jerry Welch, Dillon Wilson, Jane Henson, Cecil Hagaman, Roy Hayes.

**Charlie Parks**  
Secretary-Treasurer

## Letters To The Editor

### Says It's Dry In Kansas

We see you are blessed with plenty of moisture in Watauga county, also in Johnson county (at Trade.) I was born in Slab Town, south of Uncle Reuben Potter's place on the side of Rich Mountain 47 years ago.

It has been very dry here for four years straight. We would certainly welcome some rain in this dry, destitute country. Two and one-half inches will cover our moisture since last October. The weather man has promised spring rain. I hope he has predicted correctly.

Geo. M. Miller  
Munden, Kansas

### Notes Victory Of Wrestlers

Congratulations to the High School Wrestling team on their State championship.

Wrestling is a sport second to none in requirements of physical conditioning and self-confidence. It also gives the small boy a chance to win recognition in athletics in a day when the 220 lb. football player and the 6 foot 9 inch basketball player win most of the headlines.

Your history of the sport at Appalachian High should be brought up to date with the fact that the school was represented by a team in the school years of 1948 and 1949. During these years another great college wrestler, Charlie Parks, donated a great deal of time coaching the team.

In 1948 the high school won a second and two third places in the State A. A. U. meet where colleges, high schools, and independents wrestle.

At least one member of that team, Gene Craven, went on to college to win many honors for himself and the school in the sport.

Best of luck to the team in years to come.

V. J. Moretz  
Lowell High School  
Lowell, Indiana

The Federal Trade Commission, which has been monitoring television programs for four months, is preparing to act against misleading and unfair television commercials.

## Local Realty Values

## How come the new Ford rides so smooth and solid?

It's the new inner Ford that gives you a big-car ride at low Ford prices

Folks just naturally love Ford's lower, sleeker silhouette. And they love Ford's new Thunderbird V-8's and Mileage Maker Six. But the thing that's really got 'em buzzing is Ford's new ride. In the new kind of Ford, vital riding features team up to give you the smoothest going in the whole ride world. For example:

- More weight and length**  
Head for the roughest road in the new kind of Ford. Notice how the biggest bumps lose their "thump"! One reason is that this biggest, longest, heaviest Ford has the extra "beef" to give a smooth, road-hugging ride.
- Better balance**  
One of Ford's nicest back-road habits is to make believe the rough spots aren't there. Proper weight distribution and precise balancing let Ford iron out bumps far better than many of the higher-priced cars.
- New automatic variable-rate rear springs**  
Going from a highway to a byway in a Ford, it's like going from soft to stiff. New design allows Ford's rear springs to "soften" or "stiffen" depending on road conditions. You get a smooth ride all the way!
- New swept-back Ball-Joint front suspension**  
Ford's new, stronger front suspension is designed to soak up the shock of rough roads. The new swept-back design lets wheels "roll" with the bump and absorb it going away... for smoother, steadier sailing.
- New lower-pressure tires**  
Even Ford's tires are new for a better ride! Although they require less air pressure, they hold about 17% more air for cushioning the car. This means a softer ride—without sacrifice of Ford's good handling characteristics.
- More comfortable seating**  
There's no sag when you sit in a Ford... even on long trips. Comfort-contoured seats, rigidly anchored, have advanced springing for greater comfort and longer life.
- More body insulation**  
Ford has more body insulation—protection against weather, dust, and noise—than any car in the low-price field. You ride through city traffic in library-like quiet.
- No metal-to-metal chassis and body contact**  
Only Ford in its field uses 26 Custom Quiet rubber body mounts... more than any other low-priced car. It adds up to a smoother, quieter riding car.

Try the new kind of ride in the new kind of **FORD**
