Legal Notices
NOTICE OF RE-SALE OF LAND UNDER DEED OF TRUST NORTH CAROLINA WATAUGA COUNTY
Whereas the undersigned, acting as Trustee, in a certain deed of trust executed by Howard C. Bailey and wife, Elizabeth R. Bailey, which is recorded in Book 76 at page 176, in the office of the Register of Deeds for Watauga County, foreclosed and offered for sale the property hereinafter described; and whereas within the time allowed by law an advanced bid was filed with the Clerk of the Superior Court and an order is issued by him directing the undersigned Trustee to resell said property upon an opening bid of \$13,910.

NOTE: Therefore, under and by virtue of said order of the Clerk of the Superior Court of Watauga County, and the power of sale contained in said deed of trust, the undersigned Trustee will offer for sale and will sell upon said opening bid of \$13,910, at public auction to the highest bidder for cash at the Watauga County Courthouse door, in Boone, North Carolina, on MONDAY, APRIL 15, 1957, at 12 o'clock Noon the following described property located in Blowing Rock Township of Watauga County, North Carolina:

Being all of lots number Thirty (30), Thirty-one (31) and Thirty-two (32) in the Smith-Winkler Subdivision of ANSLEY HEIGHTS as shown on a map of this subdivision recorded in the office of the Register of Deeds for Watauga County, North Carolina, in Map Book 2 at page 15, to which map reference is hereby made for a complete description of said lots located about three (3) miles West of the Town of Blowing Rock, North Carolina.

Together with the partially completed dwelling structure located thereon and all plumbing fixtures, heating equipment and building materials located on said premises. This the 28th day of March, 1957.

MARSHALL E. CLINE, Trustee Lenoir, North Carolina 4-4-2c

NOTICE IN THE SUPERIOR COURT NORTH CAROLINA WATAUGA COUNTY LENNIS PENNELL vs.

PEARL P. REESE and husband, CLAY REESE; MAMIE R. STEVENSON and husband, O. L. STEVENSON; ED PENNELL and wife, EMMA PENNELL; MARTHA P. PARDUE and husband, ORVILLE PARDUE; LETHA P. Blowing Rock Rotary Auction Sale April 13

The first of four general auction sales to be held by the Blowing Rock Rotary Club will open at 7:30 p. m. Saturday, April 13, in the high school gymnasium at Blowing Rock. The project is being launched to raise \$600 for the buying of venetian blinds for the new school building.

Items for auction will be collected by truck, and the success of the project will depend largely on the amount and type of goods which are made available to the Rotary Club. Anything of some value, no matter how old or out-of-date, will be gladly received, including all kinds of household furniture, appliances, and equipment; any farm or garden tools or left-over building materials; good used clothing; boxes of cast-off toys; and sports equipment.

Members of the community are urged to look around their homes, offices, basements, or yards, spot the things you've been meaning to get rid of, and let a Rotarian know about them.

Farm Questions Are Answered

QUESTION: What's the best way to protect against bloot and off flavors in milk?

ANSWER: For the safety of the cows and the taste of the milk, dairymen should not let their cows go out on the lush green pastures at the beginning of spring without first having been fed some kind of roughage—either hay or silage. If the cows are not completely empty when turned on the pasture, it stands to reason that they will not eat as much and as fast.

QUESTION: What is the best way to control the relatively new plant pest known as the alfalfa weevil?

ANSWER: Entomologists at North Carolina State College recommend heptachlor as the most effective insecticide in combating the alfalfa weevil. It's safe to use up to two weeks prior to cutting without leaving residue on the hay. It is available for use in sprayers as a 25 per cent emulsifiable concentrate. Recommendations call for the use of one pint of the concentrate in six to 10 gallons of water per acre. The material is also available as a 2 1/2 per cent dust and would then be used at the rate of 10 to 12 pounds per acre.

QUESTION: How much commercial fertilizer is used in North Carolina in one year?

ANSWER: In 1955 farmers in this state used some 1,828,000 tons of commercial fertilizer or almost seven tons per farm. This is about a 5 per cent increase over the 1950 level.

QUESTION: What type of fertilizer should I use on my house plants?

ANSWER: Use any good garden fertilizer such as 6-8-6 or Vigoro. Fertilizers put up in small packages especially for house plants are good, though more expensive.

QUESTION: How can I have good sausage?

ANSWER: Detailed information on the correct procedure is available at the county agent's office. But be sure to follow the recommended seasoning, and store in the proper place.

North Carolina is now selling approximately one-half of its annual broiler output outside the state.

Trout Fishermen Given Break

Trout fishing "prists" are getting a stream to themselves in the mountains of Western North Carolina.

A section of the Nantahala River's head waters in the Standing Indian Wildlife Management Area has been reserved officially for fly fishermen by the North Carolina Wildlife Resources Commission. The refuge is near Franklin, reached by U. S. 64-23-441.

Heretofore the regulations have permitted the use of such artificial lures as spinners, poppers, and flatfish in the stream. But no more, says J. Harry Cornell, chief of the Wildlife Commission's fish division. Lures now are limited to wet or dry flies.

"We hope to give the fly fishermen a chance to use their lures without having to compete with other types of artificial baits," added Cornell.

The trout season in the Stand-

Letter To Editor

Mr. Rivers: Just writing to say we appreciate very much the nice clean paper you and your co-workers put out.

The Watauga Democrat is a paper we are not ashamed to have in our home. It does not have any alcoholic beverage ads and we sure appreciate that.

MRS. W. E. SHEFFIELD Vilas, N. C.

Any meat that is cured in a locker plant and brought back to the farm during the spring and summer months should be bagged and hung immediately to allow for moisture loss so the meat will age properly.

AT AUCTION

THE ESTATE OF THE LATE DR. FRED M. DUCKWALL

A 380 ACRE FARM LOCATED IN THE TRI-CITIES AREA — NEAR TRI-CITY AIRPORT, HOLSTON INSTITUTE COMMUNITY, SULLIVAN COUNTY, TENN. ONLY ONE MILE FROM BEAUTIFUL BOONE LAKE

This is One of Sullivan County's Finest Grade A Dairy Farms and Stock and Grain Farms ALSO 119 HEAD OF DAIRY CATTLE, ALL DAIRY EQUIPMENT AND TWO CAR LOADS OF FARMING MACHINERY

A COMPLETE DISPERSAL OF LAND—CATTLE—AND EQUIPMENT
SATURDAY, APRIL 6 — RAIN OR SHINE
10 A. M. SHARP—

Sale conducted by the authority and under the supervision of the co-executors of the estate of the late Dr. Fred M. Duckwall—Mr. Russ of the First National Bank of Kingsport and Mr. Gibbons and Mr. Werth, also of Kingsport. 380 ACRES OF GREEN, FLOWING, FERTILE LAND SUBDIVIDED IN 8 SEPARATE TRACTS

Every acre of this land has been limed, fertilized, phosphated and tons of litter have been spread over it many times. It is in a high state of fertility producing the greatest number of gallons of milk per acre and the greatest number of pounds of beef at the lowest cost.

THE DAIRY is a big money maker, a real operating plant, a going paying business. The net profit last month after all labor costs and operating expenses were paid was \$1,590.50. This amount will be increased when the 24 heifers freshen and are added to the herd. This monthly profit is being realized notwithstanding the dairy is being operated by all hired help. A farmer-owner would cut the expense and increase the profits.

THIS FARM IS LOCATED IN THE HEART OF THE TRI-CITY AREA—This is the most favored area in Upper East Tennessee. It is surrounded by four bustling cities growing in every direction and rapidly flowing into this area. A quarter million people live within a few miles of this farm —this assures any one making an investment in this land that it will be safe and sure and in the future will increase in value.

TODAY AND TOMORROW YOU GET THE PAY-OFF ON YESTERDAY'S PLANNING AND INTENSE DEVELOPMENT. DR. DUCKWALL SPENT THOUSANDS OF DOLLARS IN IMPROVING THIS FARM AND NOW YOU ARE TO GET THE BENEFIT OF ALL OF THIS.
