

GRADUATES ENTERTAINED.—Graduate students at Appalachian State Teachers College enjoyed riding in the cab of "Tweetsie" during Graduate Clubs picnic outing, but didn't appreciate being scalped by Indians.—John Corey photo.

Hodges Challenges Youth To Meet The Red Competition

Raleigh — Governor Hodges challenged the youth of North Carolina this week to meet the competition of Russian youth in education.

"We are, as individuals and as a nation, involved in a very serious competition with the Communist world," said the governor. He was speaking before delegates to 4-H Club Week on the N. C. State College campus.

"One of the reasons... that the Soviets have made such dramatic progress in recent years is that their young people are extremely serious in all their activities," the governor said. "If he is a student of agriculture, he studies hard to learn everything he can that will make it possible for him to out-produce the Americans."

Hodges said "the frightening thing is that the young Russian is completely convinced that his nation will win, that Communism will dominate the world—and in the not-too-distant future."

"He has great confidence in his own ability and he is convinced of our complacency."

Hodges told the 4-Hers that "each time you undertake a new 4-H Club project, each time you enter a classroom, each time you open a textbook, each time you are tempted to avoid responsibility, you must make a decision. You

must ask if you are being honest with yourself, if you are taking full advantage of the wonderful opportunity you have to develop into useful, productive citizens.

"The potential is here. You have the opportunity, you have the intelligence and you have the incentive. You have only to summon the courage and determination to get the job done."

EXPENSIVE ALARM!

Los Gatos, Calif.—The tear-gas burglar system in Paul Swanson's auto agency did its job when it frightened off culprits, recently. It was the first real test for the alarm system, and it was expensive.

The tear gas was not released until after the burglars cut their way through Swanson's safe with a torch. They left in such a hurry that they dropped the torch. Cash and checks amounting to \$10,000 were burned.

Thomas Greer, principal; Ruth B. Mast, Madge W. Reese, Jennie L. Deal, Mattie L. Walsh, Amy H. Johnson, Mary Lea Glenn, Syble P. Hutchinson.

Watauga Consolidated School

Walter E. Henderson, principal and high school teacher; Marjorie B. Lowery, Margie Bohannon.

JOHNSON FORECAST

Norman Thomas predicted recently that if the Democrats were victorious in November, Senator Lyndon Johnson might become the most powerful Vice-President in history, "perhaps as powerful as the President himself."

The Socialist leader said he thought it was "fairly clear" that Mr. Johnson would not really step down as Democratic leader of the Senate. Any new majority leader would be only a Johnson "deputy," Mr. Thomas said.

Test-ban talks define detection "threshold."

Hints For Homemakers

The important thing in designing a child's room is to use a decorative theme that allows easy maintenance.

An outstanding designer of children's furniture said recently that the use of colorful and attractive wall paper in a child's room is a perfect way to expose a child to beauty at an early age. The designer advocates that as exposure to good music brings appreciation in later years, so will exposure to style in a child's room bring about the same effect in furnishings.

A floor covering that will take hard wear and won't spot from water is desirable. A perfect flooring for a child's room is plastic coated cork. No waxing is necessary, moisture does not damage it, and most spots will wipe up with a little soap and water. The cork is very quiet, which is perfect for baby, and makes it much easier on parents later on.

All paint used on furniture in a child's room should be the non-toxic type. This fact will not limit your choice of colors. Try to avoid sharp corners on any piece of furniture chosen.

The fabrics used in the nursery should all be washable. Plastic on all upholstered furniture is desirable. Foam rubber is considered the best buy because it is more durable and can be cleaned easily at home. If you are building a nursery, you may want to consider some type of sound-proofing on the ceiling or a wall which faces a busy hall.

Walls, windows and floors are the background for your decorating. They are as important as

furniture, perhaps more important. Walls and windows create the type atmosphere you want. Their height, stateliness and formality, or quaintness and informality, set the theme of a room.

Smaller houses and smaller rooms demand that we make our walls work for us by holding the added conveniences of built-in furniture, shallow closets, drop-leaf desks and the like.

Scenic wallpapers, or those in scenic effect, are among the most beautiful and formal of wall decorations. They were first used to replace mural decorations and have gradually become a definite type.

Floral wallpapers in delicate

colors are lively in bedrooms. The light, airy prints are particularly lovely for a young girl's room.

Painted walls of a solid color in varying tones from light to putty, cream, rose and blue are used as backgrounds. Figured rugs and draperies give pattern to this room.

Paneling is popular in an informal room, and even for modern kitchens. Jacobean paneling of oak or mahogany is beautiful for the more formal homes. In such rooms draperies may be a rich damask in yellow or red or a hand-blocked Jacobean figure. Oriental rugs and needlepoint coverings for furniture will complete a picture
