AMERICAN FOOD INTAKE

The average American consumed
an estimated 1,488 pounds of food
this year.
The Agriculture Department re-
ported that the average American
ate a little over 400 pounds of
dairy products, except butter, and
approximately the same amount of
fruits and vegetables.

The average meat consumed was
178 pounds followed by 146 pounds
of flour and cereal and 108 each
of potatoes and sugar and other
sweets.

The lowest category of below one
hundred pounds covered 67 pounds
of butter, 41 pounds of eggs and
17 pounds of coffee, tea and cocoa.

About 87,000 Tar Heel farmers
grow cotton.

Washington News

Washington, D. C.—The crisis
in Laos was the latest in a series
of Chinese-sponsored aggressions
which calls the United States' hand
indirectly. The technique is the
same which was used so success-
fully for a while by Adolph Hitler.
Hitler had National Socialist
parties organized in such states as
Austria and Czechoslovakia and
used them to do the things, quite
often, he did not want Germany
to do openly. The Chinese have
the same plays working for them.

Laos was invaded, according to
the most reliable sources, by com-
munist-prepared and trained forces
and because the United States and
other democratic powers had guar-
anteed its freedom, it was up to
us, the English and the French, to
fight or negotiate.

France, tied down in Algeria, is
too weak and tired to fight. Eng-
land wanted to hold conferences
and negotiate. President Eisenhow-
er was tempted to be tough and
stand back of our guarantee to
Laos.

That was the situation facing the
outgoing President as he prepared
to vacate his office in favor of a
successor. The Chinese Reds have
gobbled up part of Indonesia, Tibet
and parts of India's border area.
They tried to grab South Korea
but force stopped them there.

The obvious feeling among Chi-
nese Reds is that the United States
will not go to war over Laos at a
time of changing administrations
—despite the guarantee. Our "out"
is that rival factions began fight-
ing in Laos long ago and that the
Chinese Reds are not directly in-
volved. It is supposed to be a revo-
lution, communist-style, that is.

What worries some American of-
ficials is the loss of face inevitable
with backdowns in Asia. Yet few
Americans want to fight in Laos—
it is generally conceded. The crisis
strikes Washington at a delicate
time and President-elect Kennedy

61 FORD
...the only car
in its field
beautifully built to go...
30,000
miles between lubrications
30,000 is the most famous num-
ber of the year. It's every '61
Ford owner's license to save.
How can Ford do it? Conventi-
onal chassis lubrication fit-
tings have been replaced with
metal plugs that help protect
each lubrication point against
abrasive mud, dirt and dust.
And then, for only about \$4
and about 20 minutes your Ford
is ready for another 30,000!
This is just one of the many
ways the '61 Ford is built to
take care of itself. Your Ford
Dealer can show you more.
HERE'S HOW THE '61 FORD
TAKES CARE OF ITSELF
Lubricates itself—You'll normally go 30,000 miles
between chassis lubrications (which cost only about
\$4.00 and take about 20 minutes) because Ford
has replaced conventional grease fittings with a
sealed-in lubrication system.
Cleans its own oil—You'll go 4,000 miles between
oil changes because Ford's Full-Flow oil filter gives
you filtration through fibers... trapping more dirt
than any other type of filter made.
Adjusts its own brakes—New Truck Size Brakes
adjust themselves—automatically.
Guards its own muffler—Ford mufflers are double-
wrapped and aluminum to last three times as long
as ordinary mufflers.
Protects its own body—All vital underbody parts
are specially processed to resist rust and corrosion,
even to galvanizing the body panels beneath the
doors.
Takes care of its own finish—Just wash and clean
Ford's new Diamond Lustre Finish and it continues
to gleam like new. It never needs waxing.

Only FORD is beautifully built to take care of itself
