

WILLIAM L. IVEY

ROBERT L. DICKENS

Two Are Appointed By Heart Association

Chapel Hill. — Two North Carolinians have been appointed to national posts by the American Heart Association, AHA President Dr. Lewis E. January announced today.

William L. Ivey of Chapel Hill and Robert L. Dickens of Durham will serve on the Heart Association's Central Committee and Finance Committee respectively.

Ivey, who was recently named director of N. C. Memorial Hospital, also holds posts on the faculties of the UNC School of Business Administration and the UNC Department of Hospital Administration.

He is a past chairman of the Board of the North Carolina Heart Association and served last year as chairman of a special committee to study the future structure and organization of the American Heart Association.

Dickens, professor of accounting at Duke University, is auditor of the North Carolina Heart Association. He is the author of numerous articles and a book on accounting.

He is presently chairman of the N. C. Association of Certified Public Accountants' Committee on Public Relations and a member of the Committee on Non-Profit Organizations of the American Institute of Certified Public Accountants, and chairman of the Joint Advisory Council on Developing Stu-

dent Interest in Accounting—a national group representing all major American accounting associations.

Pensioners Must Fill Questionnaire

Veterans, widows and dependent parents receiving pensions from the Veterans Administration should receive their annual pension questionnaire with their check Dec. 1.

In order to continue receiving pension check in 1967, recipients must correctly and promptly fill out the questionnaire.

Service Officer J. W. Norris, office room 47 of the Courthouse Annex, will be happy to assist with the paper work.

Marriage License

Marriage license have been issued to the following:

Michael J. Bovino, 803 Robinhood Drive, Aurora, Ohio and Elizabeth Irene Hartley of Blowing Rock.

Eddy Council Harmon of Sugar Grove and Judy Lorene Wiseman of Boone.

Robert Dean Hollar and Ramona Lee Milam, both of Boone.

"Star Of Bethlehem" Is Planetarium Program

Chapel Hill—The Morehead Planetarium's "Star of Bethlehem" program has, for many North Carolinians, become a traditional Christmas time experience.

The program, with annual improvement as possible, is in the 17th year of presentation and will attract its quarter of a millionth visitor this season. Senior Planetarium Narrator, Norman W. Mattis, who opened this year's program, said, "The 'Star of Bethlehem' continues to be one of the most popular of all the programs we present and remains relatively unchanged from year to year. I feel that the Christmas season is not really complete without reviewing the ideas presented in the program."

Professor Mattis began his narration by presenting the current winter sky to the audience through the use of the giant Zeiss Planetarium projector. Then, using time and space motions of the complex instrument, he showed his audience what changes would take place in the sky as we travel from Chapel Hill to Bethlehem—and go back nearly 2,000 years in time. What the ancients saw in the sky, that might have been the star, was discussed and illustrated. He stated, "Of all the scientific possibilities used to explain the 'star', the idea of coming together of three bright planets, called a conjunction, exhibits the best supporting evidence."

This conjunction was demonstrated as the audience watched changes take place in the Planetarium's indoor sky in just the way the Magi might have observed these same motions in nature.

"The star" marked the coming into the world of a "light" so bright that it today still "outshines" that of all the stars combined. Whether "the star" can be explained by science or whether it was a miracle was left to the individuals in the audience to decide. Through the use of music, the spoken word,

tableaux and colorful special effects, the program then moved to a beautiful but simple retelling of the story of the first Christmas. At the conclusion, the sky theatre was transformed into a simulated cathedral complete with gothic arches, stained glass windows and a central rose window high overhead. The audience left in silence as no one seemed to want to break the thought that had been inspired by the story.

"Star of Bethlehem" may be seen at 8:30 p.m. each day; Saturdays at 11 a.m., 1, 3, 4 and 8:30 p.m., and Sundays at 2, 3, 4 and 8:30 p.m.

Reservations are not required for families and other groups at these hours. However, school groups may make reservations to see the program at 11 a.m., 1 and 4 p.m. Mondays through Fridays. Also, at 10 a.m. and 2 p.m. on Wednesdays, Thursdays and Fridays classes may see "Exploring the Sky", a program about the constellations.

A complete schedule of all programs is available by writing to the Planetarium. Please use your Zip Code in all correspondence.

Cattleman Is Named Delegate To Chicago

John A. Pritchett, Jr., local breeder of registered Angus and Secretary of the Progressive Angus Breeders Association, has been elected delegate to represent North Carolina by the American Angus Association, according to Glen Bratcher, National Executive Secretary.

The 83rd Annual Meeting of the American Angus Association and delegate assembly convenes during the International Livestock Exposition at the Amphitheater, Chicago Union Stock Yards.

The judging and sale of grand champion Angus breeding stock from all over the world is an annual event at the International Exposition.

Beginning Thursday Night CREST STORE Will Be Open Every Night (Mon. Thru Sat.) Until 9 P.M.

BILL COX'S CHEESE HOUSE

321 Bypass Blowing Rock

Holiday Sweets---
