ABOUT YOUR HOME

Winter Evening And Fire On Hearth Homey

Nothing is more "homey" and delightful on a winter evening than a fire in an open fireplace. The know-how of modern brick masons and builders has largely eliminated the mess and bother connected with an open fire.

There are endless kinds of fireplace equipment to add pleasure to fire building. New types of dampers on the market do away with the draft usually associated with a fireplace when it is not in use. Modern fire screens and more efficient fire logs make it much safer to have an open fireplace in your home.

A fireplace, even when not in use, is an attractive addition to any home. During the summer it will look cool and lovely filled with growing house plants or cut greens. It will provide a center of interest for an otherwise dull room.

Large, Early American type fireplaces are popular for a den or kitchen these days. They have a double use, providing a perfect charcoal cooker during the winter months.

A wood fire is by far the most attractive kind of fire to have. Hardwoods make the best firewood because they burn longer and hotter. It is a good idea to have a shelter-

ed place to keep some logs dry. These dry logs will catch quickly and in turn keep the greener wood burning.

Slightly green wood burns more slowly and after it catches, will make a fire that lasts a long time.

There are chemical products on the market that can be thrown into the flames to give many different colored lights to a fire. Pine cones also make interesting fire patterns.

HEALTH AND BEAUTY

Condition Of Hair Reflection Of Health Meets Tonight

The condition of your hair is but a reflection of your general health. You have seen neglected, undernourished animals. All of them had dull, scraggly, unkempt, dead-looking hair. The same can be said of human beings.

The hair responds readily not only to the local care you bestow upon it, but to the food you eat, the amount of sleep you get, bathing, exercising, etc. If you meet a child or adult with clean, rosy cheeks, sparkling eyes and shining, well-kept hair, it speaks health and well-being.

The hair is nourished from the blood stream and the blood

is made from what you eat. For this reason, you must eat foods that are rich in vitamins, minerals, proteins, sugars and starches. The glands are influenced by diet. They, in turn, have much to do with hair.

If milady wants shining locks, she should keep her hair clean and her scalp exercised by frequent brushings. This brings the blood to every tiny follicle and feeds the hair. After a vigorous brushing the scalp glows with warmth and has a feeling of well being which is induced by improved circulation.

Massage helps to invigorate the scalp. It is a good practice to catch up little bunches and pull it energetically. This loosens and exercises the scalp. It is said that women do not become bald as do men because the scalp is fed by blood which is brought there by brushing, massage, pulling the hair, etc. Men's hair is kept so short that it does not receive the proper exercise. The hair follicles cease to provide nourishment due to an insufficient supply of blood. As a result, the hair falls out and the follicles die. After this happens, nothing can make the hair grow back.

Wildlife Club Meets Tonight

The Watauga County Wildlife Club will hold its first regular meeting Thursday night, December 8, at 7:30 p. m. at the Valle Crucis School.

A film, "Bay at the Moon" will be shown. All sportsmen are invited to attend.

African states cooler to neighbors' exiles.

Canadian accused of possible aid to Soviet.

Air and sunshine are good for the scalp. Hair should be massaged every day and shampooed on an average of every two weeks.

WRAP UP A NEW HOME FOR CHRISTMAS

We'll Hold A Finger On The Knot!

It's great fun to this child to "hold a finger on the knot" while Mother wraps a gift package. Actually, it's a real help to Mom . . . kind of keeps things from slipping loose.

It's that way with folk's savings. They keep slipping loose unless someone keeps a finger on the knot.

That's our specialty. Actually, we're very helpful, too. The savings keep growing and growing while we keep our finger on the knot. Doesn't take long to wrap up a new home that way. See us today.
