Paul & Ralph Say:

What Is A Picture Worth?

The Chinese say it's worth a thousand words . . . We say it may be worth a thousand dollars!

The Watauga Insurance Agency has expanded its services to the point where we are taking pictures of houses in order that we might find out whether a house is over-insured or under-insured. There is no expense to the insurer. At least 2,000 homes—possibly 3,000—will be photographed and pictures sent to the insurance companies which now carry the insurance. "Practically all insurance companies are asking their agents to perform this service for the insured."

There is not enough time to stop and discuss each picture with the insured.

Heart Fund Effort Starts Last Monday

As the 1967 Heart Fund Campaign for Watauga got underway Monday, Mrs. Mable Brown, president, forecast diseases of the heart and circulatory system will take more lives than all other causes.

A goal of \$3,000 was announced for the February campaign and committee chairman designated: County chairman, Mrs. Ralph Greene; publicity,

as County chairman for the Heart Fund, last year working closely with the campaign as president-elect. She is a retired stenographer and bookkeeper and her many interests include hand-painting, gardening and landscaping and varied crafts.

Mrs. Brown told the group there are approximately 21,500,000 known victims of heart disease across the nation, and about 13,000,000 more persons with "suspect" heart disease. In Watauga, other leading causes of death—for the last reportable year—were cancer, 14; accidents, 13; pneumonia and influenza, 1; and diabetes, 2.

She is president of the Worth-while Woman's Club; secretary-treasurer of the Mountain-ear Gardeners Club; member and director, League of Women Voters; member, Watauga Board of Directors of Public Welfare; treasurer, Empty Stocking Fund; and chairman of the Anti-Litterbug committee, of the Watauga Garden Council.
