

## Whitener Receives Award For Economy

John C. Mason, President, National Associated Businessmen, Inc., today presented Basil L. Whitener (D-NC) with the organization's "Watchdog of the Treasury" Award in honor of the Whitener's 90.9 per cent economy voting record for the Ninetieth Congress, 1967-1968. The Congressman's record would have been 100% except for his absence for one vote.

In congratulating the Congressman, Mr. Mason said, "Your outstanding economy voting record indicates to your constituents and to our membership that you have a keen realization of the problems of fiscal responsibility. I know it takes a lot of courage to stand up against the pressure groups who advocate unnecessary Federal spending."

"As you know so well, infla-

tion affects all of us, and your votes against inflationary spending merit our appreciation. Your economy voting record is a constructive achievement of which you and the voters who sent you to Washington should be very proud".

Made up primarily of small business firms, the NAB is a nonpartisan organization with its headquarters in Washington. Its goals include fiscal responsibility in government and the elimination of the Federal Government from competition with private business.

Whitener received the same award in 1966 for his economy voting record.

### Duplicate Bridge Results Announced

Pete Burkholder of Lenoir and Dr. Jim Smith, ASU Mathematics Professor, handily won the October monthly master point event with a whopping 68 per cent game. They garnered 65 of a possible 96 match points in their victory in the October 7th contest.

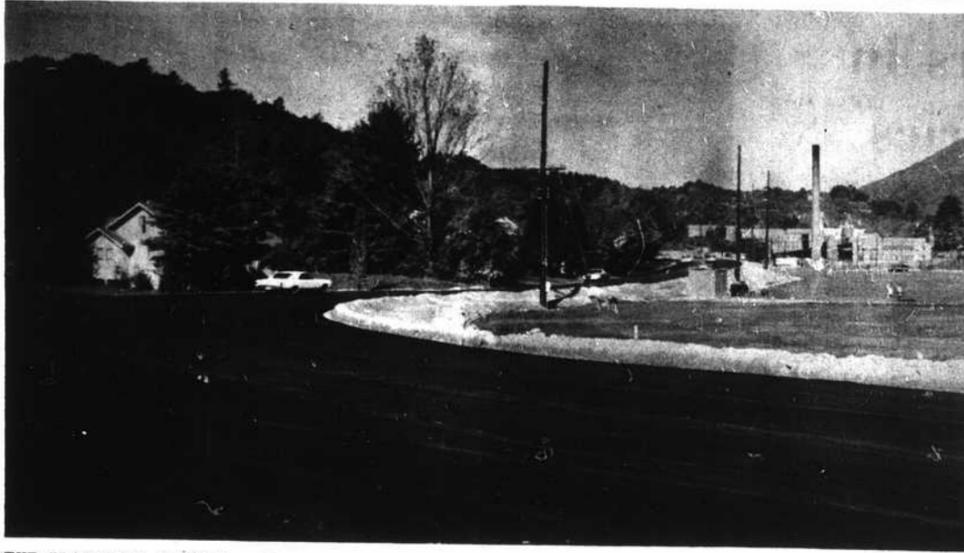

Charles Brasswell and Dr. Paul Patterson tied for second and third in the 12 pair contest with Mrs. L.L. Patterson and Dan Duke. Each pair amassed 55 match points. Fourth with 54 points were Professor Robert Pugh and Tom Oakley.

Boone bridge players are reminded that Lenoir holds its weekly duplicate contests each Thursday, 7:30 P.M., at the Lenoir Recreation Center. Boone and Lenoir are members of the Mountain Valley Bridge Unit of the American Contract Bridge League.

Contests are open to all bridge pairs, regardless of experience. In addition to master point awards, the Boone Club awards 100 green stamps to each member of winning pairs.

### LOYAL CLASSMATES

Englewood, N.J.—Friends of Cheryl Pennington, a 17 year-old senior who lost her left arm to cancer, have started a fund to pay \$4,000 in medical expenses and for an artificial limb. The fund's co-chairman said any money raised over the necessary amount would be donated to cancer research.

THE BLACK-TOP IS DOWN on the spacious entrance to the Boone Thoroughfare as seen from the Blowing Rock Road. When finished, the traffic artery will traverse the campus of Appalachian State University and end at the intersection of South Water and Rivers Streets. One of the big jobs yet to

be done on the road is the partial laying-waste of the tobacco warehouse across from the bus terminal. The original right-of-way marks show that several feet of the big building are in the path of the Thoroughfare, also part of the entrance to the home of the university president, Dr. W. H. Plemmons.

## Tuttle New Health Dept. Administrator

Carl Tuttle has been employed by the Board of Directors of the District Health Department as the new District Health Administrator.

Tuttle comes to Boone from the Kentucky State Department of Health in Frankfort, Ky. where he was Director of Home Health Services Program. He had been there since 1964.

He will be the overseer of the three county health facilities in Ashe, Alleghany, and Watauga. He will have responsibilities in program planning, implementation of programs and their evaluation.

Tuttle replaces Dr. Mary Michal who had served in this position for several years. She left Boone this summer to work at Broughton Hospital in Mor-

ganton.

He received his B.S. from Eastern University in Richmond, Ky., and in 1967 was granted his Master's degree in public health from the University of North Carolina at Chapel Hill.

Tuttle has been here only a week. He will work one day

a week each in Ashe and Alleghany counties and will be in Boone the rest of the week.

Wayne Richardson, chairman of the Board of Directors of the District Health Department said that Tuttle's position as administrator is a new one.

He said that the other departments in the State have gone to the use of non-medical staff with training as in administration. He said that Tuttle's salary would be \$11,800 annually. Tuttle is married and has a nine-month old daughter.

### Deck How-To

A wood deck of laminated Douglas fir or cedar 2x4s on edge offers a tough wearing surface and no sagging. To build one, side-nail laminations through spacer blocks at three feet on center, using small squares of one-eighth inch fiberboard for spacers. Toe-nail third laminations to supports underneath.

# only MONOGRAM oil heaters can give you all these advantages

### 3-WAY HEAT CIRCULATION

Distributes an abundant blanket of heat over the floors to provide floor-to-ceiling comfort throughout the "living level" of your home. Heat you can feel and enjoy—whether you're standing, sitting or lounging on the floor.

### TWIN REVERSE FLOW HEAT EXCHANGER

The heated air travels further before it moves into the home. Squeezes maximum warmth from every drop of oil. Specially designed to direct added radiant comfort at the "living level"—with more heat on the floor.

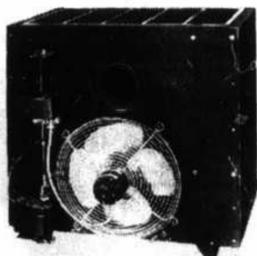

### CHOICE OF CONTROLS

The *Thermatic Control* gives you desired temperatures automatically—regulates fire up and down gradually, adjusts burner draft and controls circulation of air. *Trimatic Control* lets you regulate flow of oil to burner, draft to burner and air circulation with a single manual dial.

### EXCLUSIVE "MAGIC MIXER" BURNER

Actually turns fuel oil into gas. This patented MONOGRAM air mixing feature produces a clean, smoke-free, soot-free, odorless flame at all fire levels to assure maximum heat from the fuel used.

### OVERSIZE "CIRCOMATIC" FAN

Keeps warm air in constant circulation through the entire house. Also provides regulated draft to the burner—balancing oil and air to assure perfect combustion at all fire levels for greater fuel economy.

### SMART DECORATOR DESIGN CONSOLE CABINETS

Distinctive modern furniture styling is evident in the walnut-grained or rich fruitwood vinyl-clad cabinet, highlighted with gold anodized aluminum. Here is a heater that blends with the finest furnishings, yet fits within the most modest budget.

Join our fight for a bug-free America.

1969 Rambler

The only car this country has that fights back. Really, don't you want a 15 foot compact, not a scaled-down import? Seating for six, not four? Six going cylinders, not four or even three? 128 horsepower, not bug-power? Luggage space for suitcases, not overnight bags? Bet you do. The only thing that's small about our Rambler is the price.

So join the fight where everything's going for you.

### POLICE VS POLICEWOMEN

New Orleans—Fifteen policemen's wives who don't want their husbands riding with policewomen partners have protested to Superintendent Giar-

russo, who explained the women were in training for office duty and were assigned to ride with officers as part of the one-man patrol car duty.
