

Your Weekly Horoscope

December 4 thru December 10

ARIES (March 21-April 19): Your ability to articulate will be put to the maximum stress test, in week ahead, Aries. You will be given a chance to shine in this department. Since this is your bag, use opportunity to influence important people who listen with respect to your opinions. Week ends on note of concern.

TAURUS (April 20-May 20): Accent is on advancement in week ahead, Taurus. So get into gear. You just can't lose. One whom you have found difficult to deal with in the past, is now in your corner. Cycle excellent for expressing views. Be original. Forge ahead.

GEMINI (May 21-June 20): Get homefront situation under control, Gem, for there are many changes in the wind. Buttonhole one who has been bugging you and iron out difficulties. Message should come your way before week ends. Read between the lines. Things are seldom what they seem, you know.

CANCER (June 21-July 22): Look here, Moonbaby, you must not wear your heart on your sleeve. At least not at this time. Maybe later. Olga recommends you play the game of love with extreme caution in weeks ahead. Fulfillment will come at a later date if you listen to Olga. Don't be so antsy.

LEO (July 23-August 22): Leo the lion will have to consider alternatives in week ahead. You are not scheduled to get your own way. Sorry, but you want to know the facts, don't you? Matters of the heart are highlighted. And herein lies deception. And lies, and lies, and lies.

VIRGO (August 23-September 22): Quiet forces are at work Virg, to change your ideas, and perhaps even mold you into a new form. Be flexible, but do not sacrifice your individuality, for this is one of your most appealing qualities. You're NOT like the rest of the pack, and you know it. Trust your hunches.

LIBRA (September 23-October 22): Libra, Libra, Libra. What is old Olga going to do with you? You insist on being the grand lover. This is your nature, to be sure, but try in week ahead to use a bit of discretion. Keep a cool head no matter how your blood burns.

SCORPIO (October 23-November 21): Amour is once again highlighted, Scorp. Do not discount the power of a glance. Shock waves may follow. Sparks may fly. Sounds like a rather decent week, doesn't it??

SAGITTARIUS (November 22-December 21): O Sai, hold on to your hat. Or wig. Wild and wonderful week is coming up. Everything depends upon you being in the right place at the right time. And wearing the right expression on your face. Plan your week so you will be out where the action is most apt to take place.

CAPRICORN (December 22-January 19): The one you love may seem unusually fickle in week ahead, Cap. If this unhinges you, then play the same game. Constancy is not always devoutly to be wished, you know.

AQUARIUS (January 20-February 18): Truth may dress in zany, irreverent costume, Aquarius. You have uncommon talent to know truth when you encounter it. This is a great gift, which few other have to the same degree. In week ahead use this gift.

PISCES (February 19-March 20): Rather uneventful week, Pisces my pet. No major ups or downs. However, your day is coming and you are instinctively aware of this, so you will be content to bide your time. On last day of week one member of family may need a bit of cheering. Give it gladly.

PANEL URGES HALT IN TESTS

Accusing the Army of "lack of candor, deception and disregard of the public interest," a House committee called for an immediate halt to large-scale tests of war gas in the open air.
