

Harris Featured Speaker In Ky.

Stanley A. Harris Sr., of Boone, one of the earliest Frankfort, Ky., YMCA secretaries, was a featured speaker Tuesday, Dec. 2, at the cornerstone laying for the new YMCA there.

Harris went to Frankfort in the spring of 1908 to head the YMCA when it was housed in the second floor rooms of the Capital Building and Loan Association.

It was the following October 8 that Harris formed his first Boy Scout Troop in Frankfort and later became responsible for organizing Scout troops throughout Kentucky. The troop was formed under a British charter.

During the cornerstone laying ceremony Tuesday, two large pieces of stone were to have been placed in the YMCA foundation. One was from the old building, the other a new cornerstone inscribed for the occasion.

Kentucky Gov. Louie B. Nunn also was to have spoken at the ceremony, but the afternoon with them were to have been citizens who attended the 1911 cornerstone laying.

The YMCA's annual dinner was to have been Tuesday night with Governor Nunn as main speaker.

According to an account in The State Journal, a Frankfort

newspaper, the YMCA and scouting were almost one in the same during Harris' days in Frankfort. He also was physical director of the YMCA.

In 1912, Harris became the Kentucky state boys work director, organizing Hi-Y clubs and Boy Scout troops in Kentucky. Five years later he moved up to the professional scouting level, and was named national field commissioner for 14 states in the south and southwest.

Harris was founder and director of the interracial service in 1926. When he retired from Boy Scout work in 1947, Harris was assistant to the director of operations of Boy Scouts of America.

Mrs. Wagner Seriously Hurt

Mrs. Ruby T. Wagner of Foscoe was seriously injured in an automobile accident near Beckley, West Va., Sunday, Nov. 16.

She was flown from the hospital there to Johnson City Memorial Hospital, Room 4115 on Friday, Nov. 28, where her condition is satisfactory. It is expected she will be hospitalized for some time.

An amazing new ingredient now comes in this familiar package.

It's called a longer-lasting engine. Longer lasting than what? Longer lasting than our old engine, which in case you didn't know, was one of the toughest engines around.

The new version is more powerful. (Top speed: 81 mph vs. 78 mph.) It has better acceleration.

And most important, it weighs the same as the older version. So it doesn't have to work as hard to get you where you're going.

But that's where the generation gap ends: The new engine will still give you a good 26 miles to a gallon of gas.

It still takes pints of oil instead of quarts. It still abstains from antifreeze. (Because it's still air-cooled.)

And it's still conveniently located in the rear for better traction in mud and snow.

Yes, all the things that made our old package a hit last year are back again this year. Including our old package.
