

Fertilizing Value Of Cottonseed Meal

A ton of cotton seed has approximately the same fertilizer ingredients as 1,053 pounds of cottonseed meal, says C. B. Williams, head of the agronomy department at State College.

But when meal is used as a source of nitrogen in applying a complete fertilizer to a crop, the yield is usually 10 per cent higher, he says, than when the nitrogen is obtained from cotton seed.

Therefore, Williams says, growers will usually find it profitable to fertilize with meal rather than with seed, though seed can be used when applied properly.

On an average, the meal will contain 5.8 per cent nitrogen, 2.3 per cent phosphoric acid, and 1.3 per cent potash, while the seed will contain 3 per cent nitrogen, 1.4 per cent phosphoric acid, and 1.2 per cent potash.

When exchanging seed for meal at a cottonseed oil mill, the farmers should get enough meal to equal the fertilizer value of their seed, plus an extra amount to pay them for hauling the seed to mill and the meal back home, Williams points out. Otherwise, they may make a better trade by selling their seed and buying meal.

In case the grower wishes to use seed for fertilizer purposes, Williams suggests that they make a compost of the seed with manure, rich dirt, or wood's mould in the fall rather than put the seed directly under the crop in the spring.

Control Mice Damage With Poisoned Bait

Field mice are an orchard pest that most fruit growers are unaware of until it is too late to save their trees, says H. R. Niswonger, extension horticulturist at State College.

Most of the mouse damage, he says, occurs during the winter months in orchards where a heavy sod covers the ground.

The mice work just beneath the surface and are not noticed until the trees begin to die or fail to bud in the spring. At first the damage may be slight, but eventually the mice eat away the bark from the trunk a few inches below the soil so as to completely girdle the tree.

The common meadow mouse migrates to the orchards when their food supply in the open fields becomes scarce. The short-tailed pine mouse is most destructive, doing worst damage to orchards growing near timbered areas.

Niswonger urges orchardists to examine the areas around their trees, looking for mice runways and injuries to the trees. If evidence of mice is found, they can be destroyed by putting out wheat bait which has been poisoned with strychnine. Detailed information how to mix the bait and place it around the trees may be obtained free from the horticultural department of State College in Raleigh.

As a supplementary control measure, Niswonger suggests the digging up of grass and weeds under the trees. This breaks up the tunnels and runways and causes the mice to seek their food in areas farther from the trees.

Edenton Wins First Elimination Game At Rocky Mount Friday

(Continued from Page One)

ground in exchange of punts. Both teams appeared over-anxious at the outset, several fumbles on both sides occurring in the early part of the game. As in previous games, the Edenton team played as a unit and many comments were heard in Rocky Mount concerning the coaching which the Edenton boys must have received.

Paul and Worth Spencer continued their powerful driving ability, while Cates improved on his ability to pick up yardage and intercept passes. Bill Harrell handled every punt perfectly and featured at passing Friday afternoon with Paul Spencer on the receiving end. The only score of the game was the result of a well-timed pass from Bill to Paul, with a previous pass barely failing to materialize. Wozelka, although not in the best of condition, played a splendid game, while Rogerson continued to master the punting situation. The remaining linemen, Spruill, Sexton, Bufflap, Layton, Boyce and Byrum, did their parts equally well in maintaining the splendid record of the 1934 team.

The game wasn't a walk-away for Edenton, the entire New Bern team putting up a wonderful fight. Weatherly, Morris, Shapou and Loeky especially stood out at a quartet of worthy opponents.

First Quarter
New Bern kicked to start the game and on the first play Worth Spencer fumbled. After Paul and Worth each tried line plunges, Rogerson booted the ball out of dangerous territory. New Bern also fumbled on the second play and were forced to kick. Worth again fumbled, and after Paul Spencer picked up six yards by plunging, he almost perfected a beautiful pass, the ball going to New Bern. After the ball was kicked and

vain for a first down until Rogerson dropping back in punt formation, skirted left end for the first first down of the game just as the quarter ended.

Second Quarter
In the second quarter the Aces made better headway at gaining ground. On the third play Paul Spencer made a first down but the ball was called back, both teams being off sides. On the next play Paul nearly went for another first down, but Edenton was again penalized for off sides. The ball went to New Bern as a pass failed. Weatherly made five yards on the first play, but was forced to kick when Morris failed to gain and they were penalized 15 yards coupled with a fumble. Concerted drives by Paul and Worth Spencer and Cates resulted in four first downs, taking the ball to New Bern's 3-yard line, but the Bears' line held and Edenton lost the ball. New Bern kicked on the first play. The next play was a beautiful pass from Bill Harrell to Paul Spencer which resulted in the only counter for the day when Paul shook off one Bear and outran two others. The extra point was made when Paul plowed through the line. Edenton kicked as the half ended.

Third Quarter
Edenton kicked to start the half, New Bern punting after seven yards were gained. Paul Spencer lost two yards, after which Cates gained eight yards, Rogerson kicking on the next play. New Bern was penalized for holding and kicked out of danger on the first play. During the remainder of this quarter the ball see-sawed up and down the field as both teams tried in vain for yardage, except near the close when New Bern passed for a first down. New Bern's rally was short-lived at this period when Cates intercepted a pass as the quarter ended.

Fourth Quarter
Rogerson kicked when the Bears' line tightened. New Bern then took to the air but kicked when a pass was blocked. Cates and Paul Spencer both made a first down after which Rogerson kicked. New Bern returned the kick after passing attempts failed. Edenton kicked back but got possession of the ball when New Bern failed in a desperate effort at passing. Rogerson was forced to kick, at which time New Bern made another spurt to make a first down, but were again checked by Cates intercepting a pass. Cates lost five yards on the next play but Worth Spencer made a first down as the game ended.

The lineups follow:

New Bern	Edenton
Paul..... L. E. Rogerson	Pritchett..... L. T. Sexton
Daniels..... L. G. Boyce	Russell..... C. Wozelka
Jeanett..... R. G. Layton	Huff..... R. T. Spruill
Stallings..... R. E. Bufflap	Weatherly..... Q. B. Harrell
Morris..... L. H. B. W. Spencer	Shapou..... R. H. B. Cates
Loeky..... F. B. P. Spencer	

Substitutions: New Bern, Griffin, Nelson, Baxter, Dill, Stein; Edenton, Byrum and Satterfield. Referee, Warrick (Guilford); umpire, Gold (Duke); head linesman, Brewer (U. N. C.)

Carolinas Lead In Strawberry Yield

Louisiana, Florida, Tennessee, Arkansas and Virginia all exceed the Carolinas in the acreage planted in strawberries, but the yield of berries grown per acre in the Carolinas places these states among the leaders in the production of this popular small fruit.

For success, Carolina growers must continue to hold and improve their high production, for there is little if any room, due to market conditions, for any substantial acreage increase.

The Louisiana strawberry industry has long been the envy of Carolina growers but, according to a recent study made by a representative of the Division of Farm Management and Costs and an agricultural economist of the Division of Fruits and Vegetables, Bureau of Agricultural Economics, United States Department of Agriculture, the Louisiana growers have fared rather badly in money returns during the past three years.

COLORED CHOIR CONTEST RESULTED IN TIE VOTE

The choir contest held Friday night in Hertford between the Hertford Colored Baptist Church choir and the Canaan's Temple Methodist Church choir of this county resulted in a tie. There were 29 voices in the two choirs, Lloyd Felton being organist for the Canaan's Temple choir. A large crowd attended the contest.
