Mrs. Jackson Member Of Beauty Council

Mrs. H. C. Jackson has been designated a member of the American Beauty Council in New York City.

The purpose of the American Beauty Council, which is purely a non-commercial organization, and its national membership, is to create hair fashions and modes through the exchange of ideas of its members, that best harmonize with the requirements of prevailing style trends.

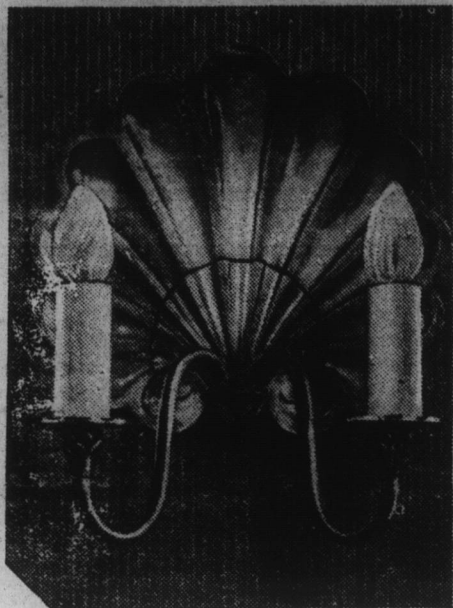

For too many years Paris, London and other European centers have labored under the assumption that they represented the style arbiters of the world. One of the primary motives behind the American Beauty Council is to prove that our own creative genius in the art of the coiffure transcends by far the abilities of beauty culturists and hairdressers in other lands, and to help make America the fashion and style center of the world.

Only two beauty specialists in each city or community are privileged to become affiliated with the American Beauty Council, and to serve as its representatives in the expression of its ideas and ideals.

HELPFUL HOUSEHOLD HINTS

The Georgian Shell Design.

The "Brompton."

WHEN you study the lighting of your living room, do so with a new and unprejudiced eye. Just because you have always had a ceiling fixture here or a wall bracket there, doesn't mean that you always must have. You will find that a change in the lighting of a room does more to freshen up the whole decorative scheme than any other single thing you can do.

The Georgian period was a time of marked graciousness and generosity of design. It has never lost favor and even in this fast-moving age it imparts a leisurely, spacious feeling to a room. The shell-design wall bracket shown herewith, created by Lurelle Guild, illustrates this characteristic. It

is one of the several hundred pure period designs in Chase lights. Likewise the ceiling fixture, of the same period, has a cleanness of line which would enhance any room in any house.

What the average householder forgets is that the lighting fixture can be removed and a new one installed in a matter of minutes, and at less than the cost of recovering a chair. Many studies made in the past year point to the fact that householders would like nothing better than to replace old fixtures, of which they are weary, with new ones of designs which never tire the eyes. This has not been possible until the present month. It is possible now.

SUNDAY DINNER SUGGESTIONS

By ANN PAGE

THE best news possible for the opening of Lent is that salt water fish is plentiful and moderately priced. Eggs too, are popular substitutes for meat and their price has declined ten cents a dozen in the past week. The third most popular Lenten food is cheese—and its price is low in proportion to its excellent nourishing qualities.

Meat prices continue to rise with no hope of lower prices for from six months to a year. Regardless of religious practice fish, eggs and cheese are good foods to choose because they are among the cheaper foods at present.

Oranges, grapefruit and strawberries offer the best fresh fruit values; and green peas, beans and cauliflower the best green vegetable values for this week.

Here are three menus made up of reasonable foods adapted to different budget levels:

- Low Cost Dinner**
- Pan-broiled Chopped Meat
 - Baked Potatoes
 - Bread and Butter
 - Lemon Snow
 - Tea or Coffee
- Medium Cost Dinner**
- Pot Roast of Beef
 - Mashed Potatoes
 - Creamed Cauliflower
 - Bread and Butter
 - Jellied Fruits
 - Tea or Coffee
- Very Special Dinner**
- Fruit Cup
 - Roast Chicken
 - with Mushroom Stuffing
 - New Potatoes
 - Shredded Lettuce
 - Strawberries
 - Coffee

Robertson Chemical Corp., Norfolk, Va.

Gentlemen:

I tried a field test this year. I bought 3-8-3 of field crop from your agent of Robertson's fertilizer. Then I bought two competitive brands of fertilizer. I tried them side by side. I could tell to the row that Robertson's took the lead. I put 300 lbs. of Robertson's 3-8-3 under one acre and made me seven barrels of corn. So you know I must praise Robertson's goods.

Yours truly,

(Signed) J. H. JACKSON.
