

Counties United In Locating Of Bridge

(Continued from Page One)
well versed with conditions in the section, reiterated the need and the benefits to be derived by a bridge and urged citizens on both sides to stop bickering and strive as a unit for a bridge, and to let the Highway Commission decide on the location.

A resolution at this point was presented by J. M. Clagon, chairman of the Washington County Board of Commissioners and was read by Rev. Mr. Stack. This resolution was as follows:

"Whereas, The Albemarle Sound, once the bearer of commerce, has become a barrier to commerce by virtue of the construction of paved highways, thereby almost completely revolutionizing the means of transporting agricultural products to market, the interchanging of goods and that social intercourse of peoples so essential to an understanding attitude of amity; and,

"Whereas, The citizens residing in the counties on the south side of Albemarle Sound are thereby placed at a great competitive disadvantage in moving their products to Northern and intermediate markets by virtue of the exceedingly long distance which they are at present compelled to haul said produce; and,

"Whereas, All previous efforts to secure relief have met with failure because, we believe, there was a lack of unity between the various groups of citizens from the several counties situated on the north and the south sides of said Albemarle Sound; therefore,

"Be it resolved, by the delegations of representative citizens from the aforesaid counties assembled in mass meeting at Edenton, this 26th., day of July, 1935, that the State Highway and Public Works Commission be, and is hereby petitioned and urged to take favorable action looking to the construction of a bridge connecting the aforesaid counties.

"Resolved further, That the delegations present hereby pledge themselves to leave the location of said bridge entirely in the hands of the said Highway Commission, feeling as we do that the said Commissioners, would in their own judgment and their proven desire to treat fairly with all concerned, be influenced in said location only by the consideration as to what location would best serve the interests of the peoples residing in the counties affected.

"Resolved further, That each group of delegates present hereby agree to select immediately a committee of three who will constitute a delegation for the purpose of presenting these resolutions to the said State Highway and Public Works Commission at their next meeting in Raleigh."

Before the resolution was voted upon Mr. Copeland called upon various representatives present to give an expression of opinion in their communities, all of whom favored the object of the resolution.

Mayor Jerome Flora, of Elizabeth City, was called upon, who in turn called upon Mr. E. C. Conger. Mr. Conger assured the cooperation and support of Elizabeth City in leaving the location of a bridge in the hands of the highway department.

G. C. Meads, secretary of the Elizabeth City Chamber of Commerce, stated that the reason that no more money has been secured in Eastern North Carolina was because "we have been divided among ourselves." He urged the entire section to work together for a bridge, making the structure paramount above its location, believing that the Highway Commission would place it where it would benefit Eastern North Carolina rather than any individual community.

Herbert Peele, of Elizabeth City, also stressed the importance of harmony and a united front to secure a bridge, saying that his newspaper had heretofore been in accord with the Highway Commission deciding where the bridge should be located.

W. O. Crump, of Sunbury, cashier of the Bank of Sunbury, expressed the opinion that Gates County citizens would cooperate to the end that a bridge be built at a place selected by the commission.

D. M. Warren, chairman of the Chowan County Board of Commissioners, was called upon for his opinion on the matter. Mr. Warren in a few sentences made clear the need for a bridge, saying that delay on the part of citizens to get together means ruin, but that united harmonious action means a new bridge. Mr. Warren made a motion to adopt the resolution presented by Mr. Clagon, but before it was seconded, Walter L. Cohoon, of Elizabeth City, offered an amendment which, however, was not accepted.

Mr. Cohoon's amendment was as follows: "To petition the Highway Commission to consider the location of a bridge as a link in a through highway from New York to Florida."

Mr. Warren was of the opinion that the amendment was not in keeping with the purpose of the meeting in putting the matter of location entirely in the hands of the Highway Commission, and did not accept the amendment. The original resolution was, therefore, adopted.

Julien Wood, a member of the Highway Commission, was called upon and Mr. Wood briefly explained that the Commission is anxious to handle the

consider the erection of a bridge, but was hesitant to act on the matter so long as there seemed to be so much dissatisfaction in the territory to be served.

The meeting ended rather abruptly due to representatives from across the Sound being forced to leave in order to catch the last ferry going to Mackeys.

The committee appointed to represent Chowan County at the next meeting of the Highway Commission, when the resolution as adopted, will be presented includes X. E. Copeland, D. M. Warren, Fred P. Wood, W. J. Berryman and E. W. Spires.

In a long letter to a friend in Edenton received on Tuesday Chairman Capus N. Waynick frankly admits to much indecision as to what the Highway Commission will do relative to bridge work in the Albemarle. "There is indecision at the present time and possibly abandonment of the whole idea of further bridging in connection with the new year's program," wrote Mr. Waynick, adding, however, "The commission may, however, reach some definite decision with respect to one of the bridges at its next meeting in August, or it may not."

Mr. Waynick speaks of the need of stabilization of the sand banks on the narrow strip between the ocean and Pamlico Sound, and says highway engineers are at work on plans to see how erosion can be prevented and the sand dunes saved—all this is of great interest to the oyster industry. The Edenton-Mackey's bridge, he states, would cost around \$850,000. "Some of the folks down in the area," writes Mr. Waynick, "would have us bridge the river at Plymouth as a substitute for bridging Albemarle Sound at any point. The cost of the undertaking would be less than either of the others but probably would be in excess of \$600,000 with the road connections necessary."

Governor Ehringhaus, writes Mr. Waynick, is deeply interested in speeding up the development of the area. As for a bridge at a point near Columbia "the cost would run up to nearly \$2,000,000 and in addition give us a bridge of such length as, perhaps, would be subjected dangerously to storms."

MRS. T. C. BYRUM HOSTESS TO R. T. BRYAN CIRCLE
R. T. Bryan Circle met Monday night with Mrs. T. C. Byrum. There were nine members present.

The meeting was opened by singing "What a Friend We Have In Jesus," and Mrs. Thomas W. Elliott offered prayer. II Corinthians, 8:1-17 was read by Mrs. J. Frank White, Sr. The study for the evening was "Lifting the Banner of the Cross in Africa." After readings by several members of the Circle, Mrs. O. C. Davis prayed that we might do our best to lift the Banner of the Cross in Africa. Routine business was disposed of, and a collection amounting to \$5.00 was taken. "Sweet Hour of Prayer" was sung and the meeting was dismissed by prayer.

The following ladies were present: Mrs. O. C. Davis, Mrs. Thomas W. Elliott, Mrs. Luther Ashley, Mrs. Bob Oliver, Mrs. H. B. Jones, Mrs. Ellen Byrum, Mrs. P. H. Bell, Mrs. J. Frank White, Sr., and Mrs. T. C. Byrum.
