### Says Red Squill Is **Best Rodent Poison**

Red Squill is rough on rats. But it much longer than a loosely does not kill domestic animals or ed bed, and in them a more poultry.

George B. Lay, rodent control leader of the U. S. biological survey with headquarters at State College, said Red Squill is the most nearly

It usually drives the rodents underground to die, thereby preventing uninstructions for controlling pleasant odors. It acts slowly, Lay added, and does not scare off late e obtained free by growers coming rats with the bodies of dead or dying rats near the bait.

The best time to put out Red Squill bait, Lay said, is during the winter when rats and mice leave the field and gather in houses, outbuildings,

Flue-cured Red Squill powder is better than the sun-cured type, he will retire close to pointed out. He recommended that the poison be mixed with three different ingredients to provide a va-

A pound of poison to 15 pounds of the farmers a good hamburger meat makes a good bait, improve their land g legumes, said Enos sion agronomist at cheap canned salmon or mackeral and a pound of oat meal. Or mix the poison with 1 pounds of corn meal and enough water to make it.

Usually, he said, it helps to put out some non-poisoned bait for a few days to get the rodents used to eating it. Then when the poisoned bait is distributed, they will eat it liber-

### Her Slogan Won \$1,000 a Year For Life, or \$12,000 Lump Sum

How does it feel to win a thonsand dollars a year for life-or \$12,000 in one cash payment?

Mrs. J. W. Bloomer of Torrington, Wyoming, can tell you the answer because she has just won first prize in the nation-wide Camay slogan contest sponsored by The Procter & Gamble Company. No wonder she is smiling! Mrs. Bloomer is pictured just after she received the award from Governor Leslie A. Miller of

Frederick J. Forster, 33 Aberdeen Street, Rochester, New York, took the second Camay slogan prize of \$500 a year for life or \$6,000 in one cash payment. The third prize was awarded to Miss Helen McCreight, 2318 West 17th Street, Little Rock, Arkansas. Miss McCreight will have the choice of \$100 a year for life or \$1,200 in one cash payment.

The three prize winners will be given two weeks in which to choose whether they prefer the cash settlements or the life incomes. The annuities, if chosen, will be purchased by Procter & Gamble from a reliable insurance company.

A complete list of all prize winners in the Camay contest will be sent every entrant in the contest, it | ter & Gamble Company, their adverwas announced by the sponsors of tising agencies and their families. In addition to the 3 grand prizes,

1,210 other prizes will be awarded | Hildegarde Fillmore, Beauty Editor, as follows: 10 prizes of \$100 each, 100 prizes of \$10 each, 100 prizes of rin, Beauty Editor, Good Housekeep-\$5 each, and 1,000 prizes of \$2 each. ing Magazine, were in charge of the The Camay slogan contest, which | judging.

cannot get at it, and where the rats or mice are likely to run. Although Red Squill will not kill other animals, it may cause them to vomit, Lay stated and then there is no need to tiful prizes given by Leggett & Davis waste the bait by allowing the other Drug Store at Christmas time. animals to eat it.

### **Timely Questions On** Farm Answered

Question: How much fertilizer should I use on my tobacco plant bed? Answer: An application of 200 pounds of a 4-8-3 mixture should be applied to each 100 square yards of bed. If a lower grade of fertilizer is used it can be supplemented with from 50 to 100 pounds of cotton seed meal provided the meal is thoroughly mixed with the soil. All fertilizer should be broadcast and mixed thoroughly with the top three or four inches of soil. Do not use tobacco trash on the beds nor any manure containing tobacco leaves, stalks, or

Question: How can I keep my all who contributed their votes and chickens from picking out their feath-

Answer: The trouble is caused by a small mite that gets into the skin near the base of the feathers and

causes irritation. To get rid of this mite the poultry house should be thoroughly cleaned and sprayed with a solution of three parts of crude petroleum or carbolineum and one and one-half parts of kerosene. Dip the birds in a tub containing two ounces of flowers of sulphur and six ounces of flaked soap to five gallons of tepid water. Be sure that the solution gets to the skin.

Question: Should the grain ration of dairy cows be increased during the winter months?

Answer: This depends upon the quality of hay and the present milk production. Each animal should have about three pounds of silage each day for each 100 pounds of live weight and all the legume hay she will consume in two feedings. When the quality of hay is poor, more grain will be required. However, no matter what amount is being fed, if the milk production remains normal then the feeding should not be increased. Extension Circular 193 gives the grain rations for different breeds and amounts of production. This circular will be sent free upon application to the Agricultural Editor at State Col-

# NEWSPAPER?

SUPPOSING that, beginning tomorrow, all the newspapers are discontinued. What a furore the public would make. "News! News! We must have news or we will be no better off than the ancients." All right, suppose we give them news but cut out the advertisements.

> Then you would discover that politics, the doings of society, notices of fires, accidents, deaths, scandals, sports, the activities of the police and criminals add little or nothing to the real comfort and happiness of this greatest age in the world's history.

> > Advertising is the NEWS of all the looms, of all the furnaces, of all the laboratories, of all the shops, of all the stores, of all the world, and all working for you.

> > > Because of advertising, luxuries and necessities that once cost a king's ransom are yours at little prices. Advertising pits merchant against merchant, artisan against artisan, producer against producer, for your benefit, forcing out the best there is in everything and telling the world about ic.

> > > > Read advertising. Keep abreast of today. Advertising furnishes you with facts and opportunities that otherwise you would never know.
