

REGIONAL MEETING OF CITY OFFICIALS BE HELD IN E. CITY

League of Municipalities Will Discuss Mutual Problems On Tuesday, January 14

All officials of Edenton have been invited to attend a regional meeting of municipal officials to be held in Elizabeth City on Tuesday, January 14, at 1 P. M. This meeting is one of a series that is being held throughout the State under the auspices of the League of Municipalities. A round table discussion will follow a luncheon at which Elizabeth City will be host to those attending.

All officials in the cities and towns in the counties of Bertie, Camden, Chowan, Currituck, Dare, Gates, Hertford, Martin, Pasquotank, Perquimans, Tyrrell and Washington have been invited to attend.

The primary purpose of the meeting is to have the attending officials become better acquainted with one another and with different problems confronting the cities and towns represented. The discussion will be used as a basis for a future legislative program, the main topics including problems of finance, tax collection, work relief and legislation.

In his letter to various officials Arch T. Allen, Jr., field consultant, says no lengthy speeches are planned, but that an interchange of ideas and experiences by the attending officials will occupy most of the time. Officials of the Local Government Commission and WPA will be present to answer inquiries in their respective fields. The meeting will adjourn at 4 P. M. in order that those attending will have ample time to return home that afternoon.

Public Attitude Helps The Banks

Annual Bankers Convention Says Public Confidence Has Been Restored

The restoration of public confidence in banking has put it in the position where it can function fully and vigorously in playing its full economic part in the progress of recovery, said the American Bankers Association in its annual convention.

"The passage of a generally constructive banking law in the Banking Act of 1935 has stabilized the banking situation and enabled bankers to devote undivided attention to the normal administration of their institutions in promoting the business and public welfare of their communities," the resolutions said.

"We feel that it is a particularly important feature of this law that it aims to create through the revision of the Federal Reserve Board a Supreme Court of Finance which, with the non-political appointment of exceptionally competent men, should constitute one of the greatest forward steps in building a sound banking and credit system."

The Government in Banking Another resolution said: "We particularly emphasize the desirability of the retirement of government from those fields of extend-

ing credits of various types which can be adequately served by privately owned institutions. We recognize that the exigencies of the now passing depression made necessary a large participation by government for a time in the task of meeting emergency financial needs.

"Those conditions have been largely remedied and the obligation now rests upon the banks and other financial agencies to demonstrate to the people of this country that they are fully able and willing to meet all demands upon them for sound credit cooperation. It is our duty as bankers to facilitate in every effective way the retirement of government agencies from credit activities by promoting public understanding of the proper function of privately owned banking."
