

# RAMBLING WITH THE Rambler

By "LITTLE BUFF"

### Vacationing

At a certain time of the year, there arises in the heart of every human being the desire to be relieved of their daily duties and do nothing but bask in the sunshine at a beach or breathe the clean and fresh odors of the mountains and their evergreens.

But with the Rambler—no, nothing like that for him on his vacation. Why have such an enjoyable time? It causes too great a contrast when you return to the old job. It causes the desire to retire and become lazy. In picking a vacation one should first consider the weather. Whatever you do, be sure you pick a rainy and windy month. I find that any time just before Easter is a good selection. The second point to be considered is where to go. The best available answer to this is anywhere out of town. Then your friends will

have no idea as to whether you are wearing a new suit or merely that that three-year-old one cleaned and pressed.

So far I have attained success to a very high degree in my selections, and as to the weather, I doubt if I will ever be able to go swimming.

### Rambling

#### The Bear's In Town!

Well, folks, the famous Bear is in town. No, I don't mean Maxie Baer, I was referring to the Honduras Bear, formerly a governor of Yeopim, and known both on the coast of U. S. and in Central America for his ability to sing soprano, play baseball, and recite his interpretation of how Lincoln's Gettysburg address should have been delivered.

"Disgusted Doug," ex-University of North Carolina baseball star, who is also home in a vacation, began to

relate some of his latest experiences while in the wilds of Central America, but as soon as his intent listeners found out that their orator had lost none of his power, which two years ago, made his president of the Exaggerator's Club, Inc., and which has also won him numerous medals for this great ability, they left the renowned gentleman to continue alone.

Nevertheless, "No Play" Webb is a welcomed man-about-town, and when quiet, I imagine would make a most enjoyable companion.

### Rambling

#### Not Inclined

No Rambling this week, folks, and sports are furtherest from my mind. I am going to make this a vacation and not ruin everything by spending my time laboring over the situations in the major leagues or worrying about President Graham.

### Rambling

#### A Letter From a New Friend

This column received a letter from a new friend, but it arrived too late to be published this week. It seems the writer is a good pal of the General who has been indisposed for some time and who signs his name as the Judge.

### See Good Market For Eastern N. C. Lambs

Lamb production in eastern North Carolina should be profitable this year, believes L. I. Case, animal husbandman at State College.

Growers in this State have an advantage over their competitors, he pointed out, and early lambs of good quality and finish are now worth \$12 to \$13 per hundredweight.

North Carolina lambs ready for market in April and early May will come in ahead of those in Virginia, Tennessee, and Kentucky, he pointed out, and will have no competition except from California.

Since this State is nearer than California to the eastern markets, he continued, growers here have a \$2 advantage in shipping costs and their animals will lose less weight in transit.

Paul Fletcher, manager of the Eastern Livestock Cooperative Marketing Association in New Jersey, has informed Case that New York City alone can use from 100,000 to 200,000 early lambs this year without danger of an excess supply.

In the eastern counties of North Carolina, Case pointed out, natural conditions for lamb production are almost ideal. Moreover, the soil-improvement program is encouraging the production of feed crops, particularly legumes, which will be a big help to lamb producers.

Winter legumes and other cover crops make good grazing for young lambs, he added.

In view of the profits in prospect, Case is urging the farmers to finish off their market lambs in good condition and also to prepare for increasing their production in the future.

### Big Baptist Meeting In Rocky Mount On Tuesday, April 14th

On Tuesday morning, April 11, at 10:30 o'clock in the First Baptist Church, Rocky Mount, the first of a series of nine men's meetings will be held in the interest of the work of the North Carolina Baptist Convention. Among the speakers on the Rocky Mount program will be R. N. Simms, Raleigh; Walt N. Johnson, Mars Hill; M. A. Huggins, Raleigh; and other distinguished Baptists.

As a part of the Convention's program for the spring a series of ten pastors' conferences have already been held over the State. These one-day meetings beginning at Rocky Mount are meant for the denomination's men—both laymen and ministers. After they have been held the denomination has a climax, on or about the last Sunday in May, when a layman is to be placed in every one of the denomination's 2,400 churches in the State to present to the many groups some phase of the great Baptist program in this State. These nine meetings have been so arranged as to make them available to the Baptist constituency throughout the State. Each one-day meeting has been set up in a strategic center and a minimum goal of 5,000 men is the aim.

### EASTER

#### WE SHALL LIVE AGAIN

#### (Resurrection)

If a man die shall he live again? He shall live again, it was proven when The buried Christ arose, victor o'er death and sin. Hallelujah, now the risen Saviour lives! A-men.

1

"Glory in the highest glory, Peace on Earth, good will to men," Was the great enunciation; Rightly so, when Jesus came: And we celebrate with praises; "God has sent His only Son;" Born to save a world of sinners; Then salvation's just begun.

2

All His work and timely teachings, All His miracles and prayer. Were but plans in God's great kingdom, Fitting souls to meet Him there: Even cruel death on Calvary, Horrible! for sinful man; Most of whom where then ungrateful— That did not complete His plan.

3

When they laid Him in the sepulcher Christian hopes were dark as night; All the glorious things they lived for— Earthly kingdoms took their flight: Thus, would be our hopes of Heaven, And His life and death be vain; Had He not, as He had promised, Conquered Death and rose again. GEORGE W. LASSITER.

### NEW STUNT AT THEATRE ON MONDAY AND TUESDAY

Manager Jimmy Earnhardt announces a unique stunt at the Taylor Theatre on Monday and Tuesday, when audiocoptiks will be presented to each person entering the theatre. By this contraption, Mr. Earnhardt says, actions on the film appear within a few feet of the onlooker and is calculated to result in much amusement.

ment. The picture on this occasion is "Tough Guy."

### NEW YORKERS IMPRESSED WITH VISIT TO EDENTON

Howard W. Ward, of Silver Creek, New York, and Ernest Erickson, of Forestville, New York, accompanied by their wives, were interested visitors in Edenton Saturday. The group traveled from New York to the Pacific Coast by way of the northern

route, returning by the southern route, and traveling along the eastern seaboard toward their homes.

Mr. Ward, an outstanding Mason, was particularly interested in the local Masonic lodge room, having been told about the famous George Washington chair, as well as other historical Edenton points while in California which was responsible for him including Edenton on his stops on the way home.

## KING of Them All

Foremost Highflyer, 1935 Grand Champion Jersey Bull. Owned by A. H. Goss, The Oaklands, Ann Arbor, Mich.

THERE ARE PLENTY of Jersey bulls in America, but only one among all the thousands, stands out as National Champion. Foremost Highflyer won 1935 honors at the National Dairy Show, St. Louis, Mo.—a magnificent creature to which Nature gave the vital spark, the perfect natural balance of all the elements that go to make a champion. Wonderful top line, great body, fine neck, shoulders, big barreled, good on his legs—Foremost Highflyer had everything!

Most bulls are just bulls, average strong, average good, but just plain ordinary bulls. There is only one Foremost Highflyer. He stands out the King of them all—the champion.

The champion bull is Nature at her best—one of Nature's wonder creations. Favored by Nature, with her priceless gift of perfect natural balance, the champion is almost beyond price, while another bull that may look a little like him—well, he's just bull, that's all.

And here is another wonder-creation of Nature—Natural Chilean Nitrate. Like the champion bull, Natural Chilean is favored by Nature with that priceless gift of natural balance—natural blend of many elements such as boron, calcium, manganese, etc., over and above its nitrogen. Nature gave the vital spark to this nitrogen fertilizer by blending into it these vital impurities. Nature herself aged it, cured it . . . that's why Natural Chilean is the natural food for your crops.

Natural Chilean contains almost two score of major and minor elements such as boron; magnesium, manganese, iodine, calcium; potassium, etc.—each a vital element in growth and healthy development of plants.

## Natural CHILEAN NITRATE OF SODA

WITH VITAL IMPURITIES IN NATURE'S OWN BALANCE AND BLEND
