### Auxiliary Of Legion Sponsoring Orchestra

Announcement is made by the Civic Committee of the Legion Auxiliary of the purpose of organizing a children's orchestra with the first practice scheduled to be held about December 1. Mrs. W. D. Pruden, chairman of the committee, says 16 boys and girls have already expressed their intention of joining the orchestra and she will be glad to have the names of any others who desire to join.

There is no expense connected with membership in the contemplated orchestra other than the purchase of a book containing orchestral numbers. Any boy or girl is eligible who can secure an instrument and shows an aptitude for music.

Mrs. W. E. Baker has been secured to direct the orchestra and members of the Auxiliary are hopeful that a creditable organization will result from the Civic Committee's efforts.

### Many Red Men At Regional Meeting

Chowan Tribe of Red Men on Monday night was host to members of the order when a regional meeting of the First District was held in the local wigwam. The room was crowded to capacity, the feature of the evening being the conferring of the degree upon five palefaces by the crack degree team from Pasquotank Tribe, No. 8, of Elizabeth City. The degree work took place immediately after a brief business session of the tribe, after which a social session was enjoyed and refreshments served.

Leslie Sherlock, great sacker of Red Men of North Carolina, was present and gave a short address complimenting Chowan Tribe upon progress made in the acquisition of new members and the interest maintained in Redmanship. He particularly stressed the orphanage fund of the order by which orphans of Red Men are supported by cash allowances and allowed to remain with their mothers rather than sent to orphanages. Mr. Sherlock's term as great sacker will soon terminate and he urged the continued cooperation of Red Men in this district for the incoming great chief.

The meeting was originally planned to be held in the old armory building but due to the cold weather it was decided to transfer the meeting to the local hall, which though crowded to put on degree work, was much more comfortable for the large number looking on.

### ROTARIANS AID IN ORGANIZING NEW CLUB IN WINDSOR

Members of Edenton Rotary Club Will Attend Banquet Tonight at Woman's Club

Edenton Rotarians are particularly interested in the organization of a Rotary Club in Windsor and on Monday Major N. K. Rowell and John A. Holmes, president and secretary respectively of the Edenton Rotary Club, together with Wallace Journey, of the extension division of Rotary International, motored to Windsor to consult with business leaders regarding the organization of a club. The three men were cordially received by the Windsor folks and tonight a banquet will be held at the Woman's Club in Windsor where Rotary and its benefits will be explained in the hope that the Windsor business men will subsequently organize a club.

Rotary should not be altogether new to Windsor and surrounding territory, for in former years during the fishing season the Wee Club has been holding regular meetings at Walter Bisping's fishery, which meetings were in many respects very much like those of Rotary. It is reported that Mr. Bisping will not

### Will Rogers' Humorous Story

By WILL ROGERS

GIRLS don't pretend near so much as they used to. Why, if a girl likes a guy nowadays, she

says to all her relatives and friends, "Watch me cog that youngster! If I don't get him, I'll cry my eyes out!" And the oldish aunts are shocked. I think these here girls are having a lot of fun telling the truth every once in a while.

Jean Pink was looking out the window kinda mooning, and her dad says to her, "Say, Jean, not that I'm anxious or anything, but when are you thinking about getting you a husband?"

"When 'n I Dad?" she says. "Why, as far as I can get to it I'm thinking about it all the time. I know I ain't got time for nothing else, and I ain't hardly any good to nobody any more. I think about it all the time."

operate his fishery this year and due to this fact it is expected the business men of Bertie will take kindly to the formation of a get-together club with the principles such as is embodied in Rotary.

Members of the Edenton Club at tonight's meeting will tell their Bertie neighbors just what Rotary is and what it strives to accomplish and in event a club is organized local Rotarians have promised to cooperate and assist in every way possible to the end that the Bertie County seat will be among the Albemarle towns to have a Rotary Club. At present in the Albemarle Clubs are active in Edenton, Hertford, Elizabeth City and a newly organized club at Manteo.

### NOURISHING SALADS ADD ZEST TO MEALS

Delightful fruit and vegetable salads stimulate the appetite, give variety to the diet, and can be used for almost every occasion, both formal and informal.

Salads are easy to prepare and they offer an excellent medium through which more fruits and fresh vegetables may be added to the family diet, said Miss Mary E. Thomas, extension nutritionist at State College.

Most salads are rich in minerals and vitamins, they also contain fats and proteins, she added.

Extension circular No. 211, "Salads," prepared by Miss Thomas and her assistant, Miss Sallie Brooks, may be obtained free from the agricultural editor at State College, Raleigh.

### Know Your Language

By C. L. Bushnell

School of English, International Correspondence Schools

USE of superfluous words is frequent in both writing and conversation. "Hollow tube" is a case in point. By its very nature a tube is hollow; if it weren't hollow it wouldn't be a tube. "Actual fact" is another example. That which is a fact is an actuality, and that which is actual exists, in fact. To write or say "It is an actual fact" is merely using a superfluous word to convey the same thought that "It is a fact" conveys.

Modifying words, phrases and clauses should be placed as close as possible to the words to which they relate. When this is forgotten odd results are likely to follow, as in the following sentence: "He carried a bag of peanuts in his hat, which he fed to the elephant." If it was his hat that he fed to the elephant, this is all right. Otherwise it is all wrong.

### CHAMPION 4-H CANNER

MARGUERITE R. GREEN, 15, Morrisville, will be one of North Carolina's delegation to the 15th National Club Congress to be held in Chicago Nov. 27-Dec. 5. She won the trip as a prize from the Kerr Glass Corporation, sponsor of a national canning contest conducted by extension agents, in which she was named state champion by Mrs. Jane S. McKimmon, assistant extension director. In her club career the girl canned 4,144 pints of foods which is inventoried with prizes of \$113.50 at \$2,065.39. She will compete for Southern states championship, and if winner will be one of four contenders for cash college scholarships of \$300, \$200 and \$100 given by the sponsor.

### Sees Stronger Demand For Farm Commodities

American farmers will find an increased demand for their products in 1937, according to a forecast sent Dean I. O. Schaub, of State College, by the federal bureau of agricultural economics.

Most of the increase will be in domestic consumption, but some improvement in foreign demand is also expected, the dean pointed out.

The forecast stated that changes in domestic demand for farm products are determined largely by changes in the income of consumers and in industrial activity.

Industrial activity in 1937 is expected to be around 10 per cent higher than in 1936 and the national income will probably rise in the same proportion. A slight rise in the commodity price level is also anticipated.

Improved industrial conditions in some of the important foreign countries have been noted, but the improvement has not been fully reflected in the exports of American farm products because barriers to international trade erected during the past decade tend to limit American exports as well as imports.

Then too, it was pointed out, the supplies of some farm products usually exported were smaller than usual this year.

Many farmers and agricultural authorities also doubt the advisability of exporting American farm commodities when they must be sold at

extremely low prices to meet foreign competition. Such exports are not considered worthwhile unless they bring the growers a profit above the cost of production.

Although the demand for farm products is expected to be heavier in 1937, it was pointed out that if farmers increase their production materially, and if the weather is up-

highly favorable, this increase may check and rise in prices due to this greater demand.

In this event, prices during the latter part of 1937 would probably not go above the present levels. However, if prices remain about the same and the quantity of sales increases, the total farm cash income would go up.
