

**Rock Caught With Connecticut Tags**

A. S. Smith on Monday was displaying two rather unique tags which were attached to a rock fish caught in his nets. The tags, red circles, were fastened to the fish across the back with the following information printed thereon: "Return to Fish and Game, Hartford, Conn." Each tag bore the number of 715.

The rock fish was about a pound in weight and evidently had been released in Connecticut waters. Mr. Smith immediately sent the tags to the northern city, being of the belief that the information was desired in the study of the habits of the rock fish.

**SWP**

**IT LOOKS LIKE OUR HONEYMOON COTTAGE NOW!**

**SWP makes houses young again**

No wonder the Mrs. waxed romantic and the Mr stuck out his chest! SWP takes years off the age of any house. There's no more beautiful house paint made. Nor one that protects better or longer. Economical too. Covers 800 square feet at a cost of less than 1/2c per square foot. SWP retains its smoothness and many people wash SWP houses with soap and water keeping them looking new year after year. That's why more homes are painted with SWP than with any other brand of paint. Drop in at our store today and see our card of 32 beautiful SWP colors.

Before you paint, investigate! Ask for your copy of our book, "The Truth about House Paint." It's Free!

**Choose ROBERTSON'S THE TEN INGREDIENTS FERTILIZERS**

A fertilizer is no better than the ingredients that go into it, so we put 10 rich materials into every bag of Robertson's Fertilizers for corn and cotton. They supply not only the usual elements but extra minerals so necessary to bigger and better yields. They contain large quantities of magnesia. They are thoroly cured, so that the magnesia is instantly available. You can use them year after year and your soil stays sweet and productive.

Sunbury, N. C., Sept. 22, 1936. Robertson Chemical Corp., Norfolk, Va. Gentlemen: I used 400 lbs. of your 4-8-4 fertilizer per acre and side dressed with 200 lbs. of Kemsoda, and 100 lbs. of Kainit, per acre, and produced 2,579 lbs. of seed cotton per acre, total 10,317 lbs.; sold it for 54c per lb.—total \$541.64. You can grow good cotton if you use ROBERTSON'S fertilizer. This is the first year I've used ROBERTSON'S fertilizers and I produced more cotton per acre than I have in 40 years. (s) J. H. CARTER.

**FROM THE SEA**  
Fish scrap is one of the richer plant foods. It feeds nitrogen to the growing plants from planting time 'til harvest. More than that, fish scrap contains 21 different minerals that crops and erosion have taken from the soil.

**FROM THE SOIL**  
Cotton and corn have a long growing season, but the rich packing - house products which we put in our mixtures will keep plants growing and healthy.

**FROM THE MINES**  
Rich quick-acting mineral nitrates and potash are put into these proven mixtures.
