It does seem a shame that the children of the neighborhood have been deprived of the advantages to be derived from attending Sunday School. Now that the summer is over, why not organize Sunday School? The only need is that some one make a start, and if no one in the community will do that, the man who so willingly gave of his time before, would not doubt gladly do so again. What about starting soon, so that a complete organization could be effected by the first Sunday in October?

BIG BOND SALE OCCASION FOR MUCH GRATIFICATION

(Continued from Page One) facilitate delivery of the securities by September 15.

The necessity for the new bond issue, now sold, dates back to the chilly night in February, 1935, when the Chowan High School at Cross Roads was destroyed by fire. Undaunted by the conflagration the countryside and the county commissioners started hopeful plans to raise the money by various federal project plans, and for a time it began to look as if there might be such success. But it was at a period when most of Chowan's anticipations of federal aid got nowhere, and all through the rest of 1935 and into 1936 utter futility resulted.

Then last year the commissioners, pressed by the new school's needs and the requirements of the law that a school should be built, took the bull by the horns and decided to raise the money as a debt of Chowan. An issue of \$100,000 bonds was approved, which was subsequently cut to \$90,000. It was pending delay in the sale of these that the Local Government Commission approved the anticipation notes, which have been several times renewed and which will now be lifted once the bonds have been paid for.

But the story goes further. Of the bond issue which was supposed to build the new school and improve the one here, more than \$60,000 was spent at the Cross Roads leaving a balance insufficient to do what was desired to the Edenton school.

The commissioners were asked for more money, sufficient to add to this balance to do the work desired,

but could not arrange for it. It was then that Superintendent John A. Holmes asked for permission to reopen an old WPA or PWA project, against which the balance of the \$90,000 in the county's hands would stand as the county's portion of 45-55 grant by the government.

The reopening of the project backed by Congressman Lindsay Warren recently got it on the preferred list of such grants for presidential approval, and on the day before the President visited Fort Raleigh this summer Warren was able to wire and write that the grant had been put through.

This share by the government, through PWA channels, together with what was left out of the bond issue will enable the local school authorities to shortly start their work and complete it in its entirety to the satisfaction of the town and county.
